Amherst College

Since its beginning in 1821, Amherst has been an independent liberal arts college. Its founders dedicated the College to "the education of indigent young men of piety and talents for the Christian ministry," but Amherst was never associated formally with any church or sect. Its charter, granted by the Commonwealth of Massachusetts in 1825, simply commits the College to "the education of youth" and bars tests of religion in choosing students or faculty.

As a men's liberal arts college offering only the undergraduate bachelor of arts degree, Amherst is dedicated to general education in the humanities, the natural sciences, and the social sciences. Its curriculum, originally based on classical standards, has never been vocational in nature. It now attempts to combine a broad comprehensive education with the study of some field in depth. Amherst urges participation and apprenticeship for its students in all areas—academic, athletic, and extra-curricular—with the general intent of encouraging each individual to use his own skills, to develop new ones, and to make active use of his knowledge. Premised on the idea that, in the long run, man can only be given the chance to educate himself, Amherst's program is a series of challenges which demand serious effort on the part of each student.

The goal of a liberal arts program like Amherst's is to awaken in each student a love and respect for learning. Since many young men graduating from college today will probably enter areas of endeavor which have not yet even been discovered, Amherst tries to make its students familiar with a variety of disciplines and able to deal with problems in a broad spectrum of fields. Such studies should prepare each man to understand areas other than his own; they should enable the future scientist to communicate with the humanist, the humanist with the scientist. Thus the first two years of the Amherst program are devoted to an introduction to the major disciplines. Certain specific courses are required of all freshmen and sophomores. Among these are mathematics, physics, history, humanities, and English composition in the freshman year, and an additional year of another science and American Studies for sophomores. These courses are taught not to survey the subjects covered, but to make the student aware of the methods and problems associated with a particular field. Ideally he should learn how an historian or a scientist thinks. Some students are granted advanced placement on entrance, but since the faculty of the College believes in a common educational experience for all freshmen and sophomores, students in each of the first two years generally find themselves working on the same problems and assignments at the same time. Thus education is not confined to the classroom but continues in dormitories and at the dinner table.

As undergraduates become upperclassmen they choose a field for their major subject. They continue, however, to elect a certain number of courses outside their major field. About half of Amherst's seniors engage

in honors work which includes independent research, often at the frontiers of knowledge, and the preparation of a learned thesis. Many students also engage in other independent work—always under the general direction of a faculty member—either as part of their regular courses or under Amherst's program of independent reading, described in course offerings on page 51.

The College's faculty, drawn from many specialties and representing a great diversity of backgrounds and interests, is engaged in two primary activities: first, the education of undergraduates and, second, research and writing. Amherst's classes run from large lectures of two hundred or more to small groups of less than five students. About 80 per cent of the classes and sections have 25 students or less. Faculty members are easily accessible to undergraduates. Most of them, however, are not engaged in feeding data to the student, but in demonstrating methods, in asking questions, in preparing him to educate himself not only in college but also during the many years thereafter.

Founded by men like Noah Webster and Samuel Fowler Dickinson, grandfather of the poet Emily, Amherst received its initial support from many citizens of the town from which it takes its name. It has had a long association with the surrounding community, particularly with such poets and writers as Emily Dickinson, Helen Hunt Jackson, David Grayson, and Robert Frost. But the College is also associated with universal traditions of scholarship and learning. Its faculty holds degrees from institutions of higher learning all over the world and its students come from all parts of the United States and many foreign countries. Among Amherst's alumni are a former president of the United States, a chief justice of the Supreme Court, cabinet officers, ambassadors, businessmen, teachers, scientists, poets, and many less distinguished citizens who have contributed to their communities and professions in significant but unheralded ways.

The Amherst campus is located on a hill just south of the town common; campus and common run together and are hard to distinguish at first glance. The surrounding area is characterized by apple orchards and tobacco farms lying on the flat land of the Connecticut Valley and by ranges of hills to the south and east. Within a short walk are wooded hills, trails, and by-roads whose names date from another age in the life of New England; Rattlesnake Road, Juggler Meadow Road, the Orient. A short drive takes one to Deerfield and Bloody Brook, Pelham and Daniel Shays Highway, Northampton and Jonathan Edwards. A few miles away are three other institutions of higher learning: Smith and Mount Holyoke Colleges and the University of Massachusetts with whom Amherst engages in a number of cooperative education ventures. These are described on page 53.

With an endowment of some \$40,000,000, the College is equipped with a library of over 330,000 volumes, science laboratories, theater, gymnasium, swimming pool, and playing fields, squash and tennis courts, a museum of fine arts, a central dining commons where all students eat, dormitories, and

classroom buildings. Amherst has a wildlife sanctuary and a forest for the study of natural life, an observatory and planetarium, and equipment for studies in low temperature physics. It offers the student a chance to conduct research with a source of radioactive cobalt or to work in a modern experimental psychology laboratory equipped with closed circuit television and automatic measuring devices; the student has access to a large selection of American paintings in the College's art collection; he studies foreign languages with native speakers and in a modern language laboratory. During the course of each year he can hear such visitors as Archibald MacLeish, Linus Pauling, Pierre Mendes-France, and Aaron Copeland. From time to time he can chat personally with visiting lecturers. The College also offers him several formal concerts each year and the opportunity for individual instrumental instruction. There is an active program of theatrical productions, schedules of foreign films, debates, and many other events, both at Amherst and at the neighboring institutions.

In extra-curricular activities the student has many chances to use his skills and follow his interests and to develop new skills. Amherst has a full program of intercollegiate athletics in most sports. Every freshman and sophomore is required to take part in a program of physical education designed to improve his fitness and to allow him to participate in team and recreational sports. In addition, about 90 percent of the students participate in an organized program of intramural sports. Amherst undergraduates also maintain a variety of non-athletic extra-curricular activities; a newspaper, yearbook, literary magazine, FM radio station, band, glee club and other smaller singing groups, a symphony orchestra (in conjunction with Smith College), a dramatic organization, and specialized clubs for those interested in such varied things as hiking, debating, medicine, law, or the discussion of current issues. The Christian Association and other religious groups, working independently or through the College chaplains and religious advisors, maintain a program of worship services, Bible study, community service projects and other activities.

Most Amherst undergraduates join one of the thirteen social fraternities at the end of their freshman year. These organizations provide housing for many of their members and are the focus of social life for upperclassmen. Freshmen live together in the same dormitories and maintain their own social activities. Since 1946 Amherst fraternities have been required to choose members without consideration of race or religion, and since 1951 every Amherst student who has wanted to join a fraternity has had the opportunity to do so.

The College's deans, medical staff, student counselor, religious advisors, and faculty advisors are prepared to give each undergraduate whatever assistance he requires. When possible, however, the undergraduate is encouraged to seek solutions to his own problems. Nevertheless, Amherst undergraduates generally find most members of the faculty and administration easily accessible, either at their offices, after class, or simply in passing on the campus.

All Amherst undergraduates subscribe to an honor code which makes them responsible for the intellectual honesty of their work. This is described elsewhere in this Catalog.

Amherst now has an enrollment of 1,050 but plans to grow to 1,200 in the next few years. The College also expects to construct a new music building, new dormitories, a new library, and other facilities to make its opportunities as ample as it possibly can.

Amherst, however, will remain small enough to maintain its sense of community, to give each individual a feeling of membership and involvement. A college is, finally, a community of scholars and learners and it is to this ideal that Amherst is essentially committed.

FOUR COLLEGE COOPERATION

Amherst has an arrangement with Mount Holyoke College, Smith College and the University of Massachusetts by which any of their regular courses is, under special circumstances, open to Amherst students. In addition, there are certain other *Cooperative Courses*, not necessarily regular courses at any of the institutions, which are, under special circumstances, open to Amherst students.

In general, permission to take any such course will be given only to students who are, or who expect to be, candidates for the degree with honors. In *all* cases, the approval of the student's major department and the Dean is required.

Students interested in such courses will find current catalogs of the other institutions at the Loan Desk of the Library and at the Registrar's Office. Application blanks may be obtained from the Registrar's Office.

The oldest cooperative venture is the Hampshire Inter-Library Center (HILC) located now in the Goodell Library at the University. HILC, a separate legal entity, is a depository for research materials and learned journals which are beyond the reach of any of the four libraries operating independently. An FM radio station (WFCR, 88.5 mc.) is run coopera-

tively through the Western Massachusetts Broadcasting Council composed of representatives of the four institutions. Other cooperative activities include a joint Astronomy Department; courses in the History of Science and in Non-Western studies; a Ph.D. program; a Film Center; a common calendar of events; a committee on transportation; and a Coordinator for cooperative projects.

The Folger Shakespeare Library

By the will of the late Henry Clay Folger of the Class of 1879, there was bequeathed to the Trustees of Amherst College the Folger Shakespeare Library in Washington, D. C., together with an endowment for maintenance, later increased by the generosity of Mrs. Folger.

The building, located on East Capitol Street directly east of the Library of Congress, was erected at a cost of more than \$2,000,000. Its endowment now stands at about \$10,000,000, and its collections are valued at about \$3,200,000. On the Library's main floor are: an Exhibition Gallery with displays of rare books, manuscripts, paintings, and miscellaneous curios and works of art; an Auditorium in the form of a reproduction of the interior of an Elizabethan playhouse; a large Reading Room, representing a Tudor Banqueting Hall and hung with early tapestries; four Vaults, containing the rarest portions of the collections; a Reception Room for social purposes; and Administration Offices. On the second floor are the working rooms of the Library's Accessions Department, the Catalogue Department, and offices for members of the staff. A Photographic Department is in the basement. Reading machines for microfilm are found in the stacks.

The Library concentrated its original collection largely upon the life, writings, and influence of William Shakespeare, but during the past two decades it has increased its rare books and manuscripts in related fields until today it has one of the largest collections in the world for the study of British history of the sixteenth and seventeenth centuries. Only the British Museum has a larger collection of early English books.

Under the plan of the Trustees of the College, in addition to maintaining its traditional interest in Shakespeare and English Renaissance literature, the Library is exploiting other fields as well. Efforts are made to expand it as an efficient laboratory of research and investigation. Aid and encouragement are given literary and historical scholars capable of making the most significant use of the Library's great collection of source materials. The Library has also developed reference collections which scholars require for the efficient utilization of rare books and manuscripts.

Research facilities of the Library are not open to casual visitors, but permission to use them may be obtained by qualified scholars upon application to the Director. Interested individuals and groups are cordially invited to visit the FOLGER's Exhibition Gallery.

Doshisha University

Doshisha University in Kyoto, Japan, was founded by Joseph Hardy Neesima, of the Class of 1870, the first Japanese to graduate from a western college or university. Amherst has maintained a continuing and close relationship with Doshisha. More than twenty Amherst graduates have taught there and since 1922 Amherst has maintained a resident instructor at the Japanese University. Amherst House, a New England Georgian style residence, was built on the Doshisha campus as a memorial to Neesima. It serves as the residence of the Amherst representative, houses some twenty Doshisha students, and serves as a center for cultural exchange between students and faculty from East and West.

Admission

GENERAL STATEMENT

Admission to Amherst College is competitive. The College attempts to select those applicants who seem qualified to benefit from the educational opportunities offered. The Committee on Admission, in judging the qualifications of applicants, pays particular attention to (1) academic performance in high school or independent school; (2) results of the College Entrance Examination Board scholastic aptitude and achievement tests; (3) the recommendation of the high school principal or headmaster; (4) evidence of industry and resolution; (5) the character, health, and extracurricular interests and achievements of the applicant. All freshmen admitted are candidates for the Bachelor of Arts degree.

HOW AND WHEN TO APPLY FOR ADMISSION

Correspondence regarding admission to the freshman class should be addressed to the Dean of Admission, Amherst College, Amherst, Massachusetts.

Applications should be filed in senior year between September 1 and March 1. Applicants who seek financial aid should file their applications between September 1 and February 1 of senior year. Under special circumstances later applications may be considered. Decisions of the Committee on Admission will be mailed to candidates about mid-April.

Students with exceptional ability and maturity who have outrun the educational opportunities of their communities may apply for admission after three years of secondary school.

Amherst has an Early Decision Program for students who have selected Amherst as the college of their choice. Details are available with the application form.

Beginning students may enter only in September.

Scholarship applicants should refer to pages 45-47.

The formal application should be accompanied by a check or money order for \$10.00 made payable to the *Trustees of Amherst College*. This application fee will not be refunded if the student withdraws his application or if his application is not acted upon favorably.

INTERVIEW HOURS

The Admission Office is open weekdays from 8:30 a.m. until 12:00 noon and 1:30 p.m. until 4:00 p.m. and on Saturdays from 8:30 a.m. until 12:00 noon, but through the summer months and until Labor Day, the Admission Office (and all administrative offices) will be closed on Saturdays. Where possible, applicants for admission are advised to visit the College and discuss their educational plans with an admission officer. Interviews are not required, however. *It is advisable to write for an appointment with an admission officer if you plan to visit the College.*

RECOMMENDED PREPARATION

The following minimum program of studies is recommended for students planning to enter Amherst College:

English	4 years
Mathematics	3 years
Foreign Language	2 years (3 or 4 years of one preferred)
History	1 year
Laboratory Science	1 year

It should be noted that the College stresses sound preparation in certain subjects which are important implements for the many branches of college work. English, mathematics (intermediate mathematics, emphasizing basic algebraic, geometric, and trigonometric concepts and deductive reasoning), and foreign language (ancient or modern or both) are the subjects in which entering students should show proficiency.

For graduation Amherst College requires competence (oral and written) in a foreign language, ancient or modern. For definition of competence see page 49. The phrase "satisfactory score" means 575 in the College Entrance Examination Board achievement tests.

In selecting a class, some preference is given to candidates who present the following programs in foreign language in the following order:

First preference—four years of one language;

Second preference—three years of one language;

Third Preference—two years each of two languages.

Candidates who apply from secondary schools which offer little or no language instruction will be judged by their other intellectual aptitudes and achievements and their readiness for the Amherst curriculum. Amherst College recommends, where possible, that a student continue to study the language he begins in secondary school through completion of the college requirement.

Students with particular interests may wish to modify the suggested program by taking more work in certain subjects and less in others. Such modification is wholly acceptable, provided there is evidence of adequate preparation in the basic fields of English, mathematics, and foreign language. Any deviation should be discussed in advance with the Dean of Admission.

ADVANCED PLACEMENT

In certain subjects, candidates who have completed advanced work in secondary schools may apply for advanced placement at Amherst. Each case will be considered individually on its own merits. Candidates interested in Advanced Placement are urged to take the Advanced Placement Tests given by the College Entrance Examination Board. Questions about Advanced Placement should be directed to the *Dean of Admission*. For

further information candidates should consult the Advanced Placement booklet in their secondary school guidance office.

COLLEGE BOARD TESTS

All applicants for admission are required to take the Scholastic Aptitude tests, two Achievement tests, and the Writing Sample test given by the College Entrance Examination Board. No College Board tests may be taken after the January series of senior year except by special permission. *Achievement tests should include a test in language and mathematics if these subjects are being studied in senior year. Applicants who wish to deviate from this program should notify the Dean of Admission.*

Students in the eleventh grade who plan to attend a college using the College Board tests are urged to take the scholastic aptitude tests and the achievement tests in language and mathematics in May if these subjects are not to be continued in the twelfth grade.

Students who graduate at mid-year should take all tests in December or January of their senior year.

Applicants should register for these examinations as soon as possible with the Secretary of the College Board, Box 592, Princeton, New Jersey. Students living in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, Alaska, Hawaii or Australia should register with the Secretary of the College Board, Box 9896, Los Feliz Station, Los Angeles 27, California. Veterans are exempted from these tests if their location and service make examinations impossible.

REGENTS EXAMINATIONS

Applicants from the New York State public schools are expected to submit scores made on the Regents Examination in addition to the scholastic aptitude and achievement tests given by the College Entrance Examination Board.

ADMISSION FROM INSTITUTIONS OF COLLEGIATE RANK

Correspondence concerning admission of transfers should be addressed to the Dean of Admission.

To be eligible for transfer a candidate must meet the following requirements:

1. His credits must satisfy the full entrance requirements of Amherst College.

2. He must have completed creditably the work of at least one year in an institution of collegiate rank, and his general average at the institution he is leaving must correspond to or be better than the required Amherst graduation average of seventy per cent.

3. He must present a statement of honorable dismissal.

4. He must file a formal application for admission by transfer.

Candidates for admission by transfer are admitted in September only. Candidates should note that, in general, only students with a B average or better will be considered for admission as transfers.

Special consideration is given applicants from junior and community colleges who have made distinguished academic records.

Some financial aid is available for transfer students.

COOPERATIVE ENGINEERING-SCIENCE PROGRAM

In order to facilitate the combination of a liberal arts course with education in science and engineering, Amherst College will permit a student of high standing to pursue a five-year program in which the first three years will be spent at Amherst College and the last two years at the Massachusetts Institute of Technology, or any other engineering school approved by the Dean of the College, with the understanding that if the five-year program is satisfactorily completed the student will receive the degree of Bachelor of Arts from Amherst College and the degree of Bachelor of Science from the engineering school.

SPECIAL BOOKLET

A descriptive booklet entitled *This is Amherst* may be had upon application to the *Dean of Admission*.

Regulations

TERMS AND VACATIONS

The college year 1963-1964 includes two regular semesters of sixteen weeks each. In the fall semester there are a Thanksgiving recess of approximately five days and a Christmas vacation of two weeks; in the spring semester there is a vacation of two weeks.

ATTENDANCE AT COLLEGE EXERCISES

The officer in general charge of matters concerning attendance at college exercises is the Associate Dean.

It is assumed that students will make the most of the educational opportunities available by regularly attending classes and laboratory periods. At the beginning of the semester each instructor is free to state his policy with regard to absences in his course, and thereafter he may report to the Dean's Office the name of any student who violates the regulations announced. In such cases the Dean will take appropriate action which may include a reduction in the student's credit hours or in his being dropped from the course.

The Registrar will send to faculty members a list of students who have been absent for athletic trips or other extracurricular activities, and a list of students who have been in the Infirmary. Students are asked to notify the Dean's Office if they have been delayed at home by illness or family emergencies. They are also expected to notify the Dean's Office of any extended absences from the College or of any unusual unexplained absence on the part of any fellow student.

If a student has been attended in his home by a physician other than one of the Student Health Office staff, he should, on the day of his return, report the absence to the Dean's Office and submit a statement concerning his illness and any recommended treatment to the Student Health Office. Students who are ill at college will normally be attended at the Infirmary or the Student Health Office, and a report of any hospitalization will be sent to faculty members.

All official college vacations and holidays are announced on the College Calendar appearing on page 5 of this catalog.

Morning assemblies are conducted on Monday, Tuesday, Thursday and Friday mornings. All students are required to attend half of these assemblies each semester.

STUDENT CONDUCT

The officer in general charge of student conduct is the Associate Dean.

It is the belief of Amherst College that its students want to take responsibility for setting, maintaining, and supporting moral and intellectual

standards. With this in mind, the College has adopted an honor code. In a social and moral sense this honor code means the support of those standards which befit the conduct of a gentleman and which will reflect credit on the College, its students, and its guests.

The College reserves the right to exclude at any time students whose conduct or academic standing it regards as undesirable, and without assigning any further reason therefor; in such cases fees will not be refunded or remitted, in whole or in part, and neither the College nor any of its officers shall be under any liability whatsoever for such exclusion.

RECORDS AND REPORTS

The officer in charge of records and reports is the Registrar of the College.

Reports of standing are sent to parents or guardians at the end of each term. The passing grade in each individual course is 60. An overall average of at least 70 is required for a degree.

Students' records are confidential and information is released only at the request of the student or of appropriate institutions and officials. Partial transcripts are not issued. Each transcript includes a student's complete record at Amherst College to date.

The first three transcripts are furnished free of charge. For additional transcripts there is a charge of \$1 each, due at the time the transcript is issued at the Office of the Registrar. Checks should be made payable to Amherst College. No records are issued to or for students with unpaid accounts at the Comptroller's Office.

ROOMS AND BOARD

All students, unless specifically excused by the Dean, are required to live either in the dormitories of the College or in fraternity houses. Dormitory rooms are equipped with bed, mattress, pillow, chiffonier, desk, chairs, and bookcase or shelves. Occupants furnish their own blankets, linen, and towels, and may provide extra furnishings if they wish, such as rugs, curtains, lamps, etc.; they may not add beds, sofas, lounges, or other furniture of such nature except under certain circumstances. More complete regulations for dormitory occupancy are contained in the Student Handbook. Room assignments are noted on the invoice from the Comptroller's Office.

All students are required to eat in Valentine Hall unless excused by the Dean. There are no rebates for absence from meals.

STUDENT HEALTH

The officer having general supervision of health, medical care and physical development is the College Physician.

The College's medical staff includes the College Physician on a full-time basis and an orthopedist and psychiatrist who have regular consulting hours

on a part-time basis. Outside medical consultants in almost all specialties are available when recommended by the College Physicians. Hospitalization of students, when needed, is usually at the Cooley Dickinson Hospital in Northampton.

Facilities for the adequate care of the great majority of the students' illnesses and injuries are available in the Student Health Office and College Infirmary. The infirmary is a modern well-furnished and comfortable building with a normal capacity of 22 beds, easily expanded to 40 beds when needed, and to 90 beds in case of an epidemic. It is staffed on a 24-hour basis by graduate nurses.

A physical examination is required of each new student in order to make a general survey of his health and to classify and advise him as to suitable physical and athletic activity.

Each student admitted to Amherst College must have been successfully vaccinated for smallpox or must be willing to submit to such vaccination by the College Physician within three months after admission.

Students who are unable to attend classes because of illness are expected to go to the infirmary. Sick excuses are given only for such time as is spent in the infirmary or, if with their families, under a physician's care.

A College Physician supervises all athletic activities and provides first aid and medical care in case of injury.

Parents are notified of infirmary admissions in the case of significant illness or injury. If such cases are serious or unusual, notification will be made by telephone. In emergencies requiring immediate surgery, when parents cannot be consulted in advance, the President of the College will assume responsibility for the authorization of operation.

A health fee of \$20 per semester is charged to each student. This fee entitles him to the services of the Student Health Office, the College Infirmary, and the College Physicians for illnesses and injuries occurring while college is in session, but does not assume the cost of continuing treatment of illness or injury contracted prior to the student's admission to Amherst or while college is not in session. These benefits end with a student's graduation, withdrawal, or dismissal from College. The fee does not cover the cost of such off-campus services as medical consultants, hospitalization, x-ray treatments, dental care, prescriptions, eye glasses, etc.

To take care of cases requiring treatment beyond the scope of the College plan, and to fill the gap of vacations and holidays, the College has arranged with Massachusetts Blue Cross-Blue Shield for a student health plan, at a yearly premium of \$19, to supplement health services provided on campus to all students. Blue Cross-Blue Shield student protection is provided for a full twelve months beginning on September 1 of each year and liberal hospital, surgical and medical benefits are available without waiting periods for all student participants. There is also an added \$5,000 in Prolonged Illness protection for the more serious accidents and disabilities. This insurance, or comparable coverage, is required for all students who participate in intercollegiate athletics.

GUIDANCE AND PLACEMENT

In a liberal arts college, where few studies are of direct occupational significance, many undergraduates find the choice of a career a perplexing problem. To help undergraduates solve this problem, the College offers an occupational guidance program under the leadership of a Director of Vocational Guidance. This program assists students to (1) discover their own special interests, aptitudes, talents, and powers; (2) discover the most promising outlets for these special and individual powers; (3) become familiar with the best techniques in obtaining a job; (4) recognize the principal adjustments needed in changing from a life on the campus to one in the business world; and (5) arrange for interviews with government agencies, business concerns, and other groups interested in employing Amherst graduates. An important part of the guidance program are the career conferences which bring to Amherst lawyers, doctors, teachers, government employees, businessmen, and others for discussions with interested undergraduates in many career areas.

Tuition and Fees

The officer having general supervision of the collection of Tuition and Fees is the Comptroller.

A candidate's formal application for admission should be accompanied by a \$10 application fee in check or money order payable to Amherst College. Upon notification of his admission to the College a candidate is required to return with his acceptance a non-refundable advance payment of \$100 which will be credited in full on his first term bill.

Student accounts are payable at the Office of the Comptroller. Semester bills will be mailed approximately two weeks before the due date. Freshmen and other new entrants should make payments on or before arrival. Advance payment by mail upon receipt of a bill will be a convenience to the student and to the College.

For those who prefer to pay monthly, arrangements have been made for a pre-payment plan, including insurance for continued payment in case of death or disability of the parent. For further details write to Insured Tuition Payment Plan, 38 Newbury Street, Boston 16, Massachusetts.

Unless special arrangements have been made with the Comptroller *in advance*, payment in full is expected when due. The due dates are Friday, September 20, 1963 for the first semester, and Monday, January 27, 1964 for the second semester.

Identification cards must be picked up in person at the Comptroller's Office before course cards can be obtained.

SUMMARY OF CHARGES*

	<i>Each Semester</i>	<i>Total for Year</i>
Tuition	\$650.00	\$1,300.00
Room	150.00	300.00
Board	237.50	475.00
Health Fee	20.00	40.00
Intercollegiate Athletics Fee	17.00	34.00
Student Activities Fee	19.50	37.00
Total	\$1,094.00	\$2,188.00

On the first semester bill there is a charge of \$19 for twelve months Accident and Sickness Insurance from September 1st. If this protection is not desired, the parent or guardian may, not later than September 20, state in writing that the College is relieved of all responsibility in this connection and request cancellation of the charge. The required Health Fee of \$40

* In the academic year 1964-65, charges will be increased \$275 as follows: tuition \$200, room \$50, board \$25.

covers only the services of college doctors and campus facilities while college is in session, but no off-campus facilities, consultants or surgeons.

Each new student, or former student reentering, is charged a \$25 Guarantee Deposit refundable after he graduates or otherwise leaves college, less any unpaid charges against him.

Each senior or candidate for the Master of Arts degree is charged a degree fee of \$15 in his final semester.

Miscellaneous charges such as fees for late registration, change of courses, extra courses, library fines, lost or damaged property, etc., are payable currently when incurred.

For delinquencies in Physical Education a charge of \$30 will be levied each semester following sophomore year until the delinquency is removed.

Scholarship awards will be credited on the semester bills. Scholarship loans will be credited after signed notes are received. Scholarships from outside donors will be credited when received.

A fee for the support of various activities of the student body is determined by the Student Council. This fee is collected by the College and turned over to the Director of Student Activities for expenditure under his supervision. For the year 1963-64 the fee has been set at \$36. For this fee each student receives a copy of the yearbook, the *Olio*; a one year's subscription to the student newspaper and magazine, *The Amherst Student* and *The Amherst Literary Magazine*; and contributes to the support of the College Band, the Glee Club, the Prom, the Debate Council, the radio station, and sundry other activities of the student body which fall under Council jurisdiction. To this fee is added \$3 covering admission to Masquers performances which are under College rather than Council jurisdiction, making a total of \$39, one half of which, \$19.50, will appear on each semester bill.

SUMMARY OF EXPENSES

Beyond the total amount billed by the College will be the student's personal expenses, membership dues in student organizations, clothing, travel, books, and miscellaneous items — all of which will vary greatly with the individual but will probably range from one to two hundred dollars per semester.

Financial Aid

The officer directly in charge of the administration of financial aid is Dean Reed.

Throughout the history of the College, alumni and friends of Amherst have given or bequeathed funds to assist worthy students having financial need. These beneficiary funds now amount to more than \$3,200,000; their income is distributed annually among students of high character and superior scholastic ability.

A few of these funds are restricted to candidates for the ministry and a few are restricted by other factors, such as the geographical location of the home of the applicant. In some cases it is stipulated that the award from a particular fund shall be made to a particularly designated student. For the most part, however, the income of these funds may be awarded as the College sees fit. Three State Scholarships of full tuition are awarded annually to qualified residents of Massachusetts. For a full list of beneficiary funds please see the Appendix.

FINANCIAL AID FOR THE THREE UPPER CLASSES

Applicants for financial aid, or for renewal of financial aid, from the three upper classes must file an account of their income and expenditures for the preceding year and an estimate of their income and expenditures for the following year on or before May 1, 1964 at Dean Reed's office. Appropriate forms are available for this purpose.

As a general scholastic requirement, applicants for financial aid from the three upper classes must pass all of their courses of the preceding year and stand in the upper half of their class, although this level is flexible in individual cases. Students whose work is unsatisfactory may expect to receive a greater portion of aid in the form of a loan, in contrast to the loan policy indicated below.

FINANCIAL AID FOR ENTERING STUDENTS

More than 80 scholarships are awarded annually to applicants for admission to college who are in need of financial aid and who meet the entrance requirements in full. These scholarships range from \$200 to \$2,300 per year and are awarded for the first year in residence.

All candidates for these scholarships must be candidates for admission and must take the scholastic aptitude and achievement tests given by the College Entrance Examination Board. Correspondence concerning scholarships should be addressed to Dean Reed. Each applicant for scholarship aid must file before February 1, two separate application forms: a) for admission; b) for financial aid. No special examinations are needed other than the College Board tests required for admission.

FINANCIAL AID POLICY

Amherst has recently broadened its financial aid program so that scholarship grants, loans, and employment all play an important part. Once the financial assistance required by a student is determined, a portion of the aid may be an outright grant in the form of a scholarship, a portion may be in the form of a loan, and some may be supplied through the earnings of the student at college. Generally speaking, the loan will be about 20% of the total aid in the sophomore year, 30% in junior year and 40% in senior year. Special circumstances of an individual may vary these proportions. Loans are made at an interest rate of 1% per annum until one year after graduation or completion of graduate school or military service. These loans carry interest payable at the rate of 1% per year until one year after leaving Amherst or graduate school or military service, whichever is latest. Thereafter the interest rate is 2% per year on all unpaid balance. Repayment of loans is expected at the minimum rate of \$10 per month beginning with the first job after college, graduate school, or military service. (Students who leave Amherst prior to graduation may be asked to assume repayments shortly thereafter.) Some students prefer to earn more money in the summer or during the college year so that no loan is needed. If a student should enter a relatively unremunerative career of service—as the ministry, certain teaching positions, social work, or the like—or if for other reasons he should find himself in a position where repayment would be a real hardship, some or all of his loan may be forgiven.

In addition to the loans which are made in conjunction with scholarship grants, there is a Student Loan Fund (see below).

SPECIAL SCHOLARSHIPS

Sloan National Scholarships: These special awards were established by the Alfred P. Sloan Foundation and are open to applicants who reside in the continental United States. With one exception, the stipends granted under these scholarships vary with the financial need of the applicant. Awards range from a minimum of \$200 to a maximum of \$2000 and are renewed each year provided the recipient's performance continues on a high level and his relative financial need does not change. One \$200 honorary Sloan Award is made to an outstanding applicant irrespective of financial need. Sloan awards are made to students who have outstanding academic records in secondary school, who have demonstrated unusual initiative, and who appear to have the character and personality required for future leadership.

Alumni Fund Scholarships: A limited number of special awards financed from the Amherst Alumni Fund are made to outstanding students. Their amount depends upon individual need but stipends range up to \$2,000 and are renewed annually unless the recipient fails to maintain a high scholastic average or his financial need decreases.

General Motors College Scholarship: The stipend for this award is determined by demonstrated need up to a maximum of \$2,000 per year. The

purpose of the award is to enable an outstanding student to attend college irrespective of his financial resources. The primary considerations, apart from demonstrated need, are the worth, talent, and qualifications of the individual applicant. The General Motors award is renewed for the four undergraduate years provided the student continues to meet the required standards.

Procter and Gamble Scholarship: This award includes full tuition and an annual allowance for books, fees, and supplies (excepting room and board) for the entire four-year course. It is made to a student of unusual ability and promise who could not attend college without considerable financial assistance.

Other Special Scholarships: Also available in recent years have been scholarships sponsored by several other foundations, trusts, and corporations. These organizations include The Westinghouse Corporation, The Edwin Gould Foundation for Children, Merrill Lynch, Pierce, Fenner & Smith, The Agnes M. Lindsay Trust, the Hubshman Foundation, and the Allied Chemical Corporation.

RESIDENTS OF AMHERST

At the discretion of the Trustees of the College, free tuition may be granted to applicants for admission who can satisfy the entrance requirements, who have been residents of Amherst for three years before the time of admission to college, and whose parents have also been residents of Amherst for three years. The grants are continued throughout the college course, provided such students satisfy the College's scholarship requirements, conform to its regulations, and their parents continue to live in Amherst.

STUDENT LOAN FUND

Through the liberality of friends of the College, loans of a limited amount can be made to a few students in the later years of their course at a low rate of interest. In accordance with the conditions set by the donors, use of the Loan Fund is limited to students in good scholastic standing whose habits of expenditure are economical and who may have emergency needs not covered by regular financial aid procedures. Further information about this fund is available from the *Business Manager*.

FINANCIAL AID BOOKLET

A more detailed description of the financial aid program, *An Outline of Costs and Financial Aid at Amherst College*, is available upon request from the Admission Office.

Requirements for the Degree

Bachelor of Arts

The degree, Bachelor of Arts, is conferred upon students who have satisfactorily met the requirements described below. The plan of studies leading to this degree is arranged on the basis of the equivalent of an eight-semester course to be pursued by students in residence at Amherst College.

The degree, Bachelor of Arts, *cum laude*, *magna cum laude*, or *summa cum laude* (Degree with Honors) is awarded to students who have successfully completed an approved program of honors work with a department or group.

Other students who satisfactorily meet the requirements as indicated below receive the degree, Bachelor of Arts, *rite*.

REQUIREMENTS

The Bachelor of Arts degree is awarded to students who:

1. Complete a minimum of one hundred and twenty-eight credit hours of which at least sixty-four must be completed in the freshman and sophomore years and at least sixty-four in the junior and senior years;
2. In freshman and sophomore years complete three two-year sequence courses in natural science, social science, and English-Humanities;
3. In junior and senior years take at least fifteen credit hours outside the division in which they are majoring;
4. Satisfy the requirements in language and the humanities;
5. Pass a comprehensive examination in their major department;
6. Complete certain prescribed work in public speaking and physical education;
7. Have no deficiencies in the work of any year; and
8. Attain a general average of 70 percent in the courses completed at Amherst College and a grade of at least 70 percent in every course completed at another institution.

Exceptions

Exceptions to these requirements will be considered in the following cases:

A. A Sophomore who finds it necessary to exceed the sixty-four credit-hour minimum of the first two years in order to take an introductory course in a department in which he plans to major may, with the Dean's permission, postpone a required sophomore course to the junior year.

B. A portion of the fifteen credit-hour extra-divisional requirement may be waived by departmental representatives whenever they consider it justified. In such cases, students, both *rite* and honors, must submit a written statement to the representatives of the departments in which they are majoring giving the reasons why the requirement should be waived.

C. With permission of the Dean students may take Astronomy 22 in lieu of Science 22 in satisfying the sophomore science requirement.

D. With permission of the Dean, in 1963-64 only. Geology 21s may be substituted for Science 23s in satisfying the sophomore science requirement.

Language Requirements

The college language requirement may be satisfied in any of the following languages: French, German, Italian, Russian, Spanish, Latin, or Greek.

In modern languages the requirement may be met in either of the following ways:

1. At entrance, by a satisfactory score in the College Entrance Examination Board Achievement Test in the language, plus a demonstration of ability to comprehend the spoken language as shown either by a satisfactory score in the Listening Comprehension Test administered by the College Entrance Examination Board, or in an aural examination to be given to freshmen at the beginning of the college year.

2. After entrance, by passing course 5 in French, German, or Spanish; or by passing course 21 in Italian; or by passing Course 4 in Russian; or by passing reading and aural comprehension examinations to be given at the end of course 3 in French, German, Italian, or Spanish.

In ancient languages the requirement may be met in either of the following ways:

1. At entrance, by a satisfactory score in the College Entrance Examination Board Achievement Test in Latin or Greek.

2. After entrance, by passing Latin 3 with a grade of C, by passing any higher numbered course in Latin, or by passing Greek 3.

Humanities Requirements

In order to satisfy the Humanities requirement, students must elect, in addition to the prescribed freshman humanities course, three further semester courses, for a total of at least nine credit hours, from the following three groups:

1. Philosophy, Religion, Classical Civilization
2. Music, Fine Arts, Dramatic Arts
3. English or foreign literature.

The requirement may be met *either* by electing one semester course from each of the three groups *or* by electing two semester courses from one group and an additional semester course from either of the other two groups. Two of these courses must be completed by the end of the sophomore year. The particular courses which may be offered in satisfaction of this requirement are those designated by the departments concerned in their announcement of course offerings, and are listed on page 7, Section 3 of the 1963-1964 *Announcement of Courses*.

The Major Requirement

A major consists of the equivalent of thirty credit hours pursued under the direction of a department or special group. A major cannot begin later

than the junior year and may begin in either the freshman or sophomore year. At least one course in the major must be included in each semester of both junior and senior years. Each department decides whether a freshman course in a department shall count toward its major.

The major can be met in accordance with either of two plans:

Plan A: A student may complete the thirty credit hour requirement within one department. He must complete at least twenty-two credit hours within one department, however, in which case he may complete

CURRICULUM FOR FIRST TWO YEARS 1963-1964

The complete program for freshmen and sophomores is:

<i>Science</i>	<i>History</i>	<i>Humanities</i>	<i>Elective</i>	<i>Public Speaking</i>
FRESHMAN YEAR				
Physical Science and Mathematics	European Civilization	English and Humanities	Foreign language or other elective	
SOPHOMORE YEAR				
<i>Two semester courses from:</i> A. Chemistry and Biology B. A semester course in Evolution of the Earth and Man and a semester course in either Astronomy, Biology, Chemistry, Geology, or Psychology C. Astronomy 22 (see Note C, page 49) D. Geology 21s (see Note D, page 49)	Problems in American Civilization	<i>Two courses from:</i> A. Literature—English or foreign B. Philosophy, Religion, Classical Civilization C. Fine Arts, Music and Drama	Elective	Public speaking

the remaining credit hour requirement in related fields approved by the department.

Plan B: Combinations of courses not provided for under Plan A, but similar in aim to the established group majors in American Studies and Biophysics, may be made with the consent of the several departments concerned and of the Dean.

Averages

Candidates' averages each semester are computed on the basis of all courses taken at Amherst College, and candidates must have a general average, including failure grades, of 70 percent in courses taken at Amherst College to be eligible to receive the degree Bachelor of Arts.

DEGREE WITH HONORS

The degree Bachelor of Arts with honors is awarded at graduation to students whose academic records give evidence of particular merit. It may be awarded *cum laude*, *magna cum laude*, or *summa cum laude*, according to the level of achievement of the candidates. All degrees with honors are noted on the diploma and the commencement program, and are announced in the annual catalog.

The award of honors is made by the Faculty of the College. In making such awards the Faculty will take into account the following factors: (1)

COURSE DIVISIONS

1963-1964

DIVISION I <i>The Humanities</i>	DIVISION II <i>Social Studies</i>	DIVISION III <i>Mathematics and Natural Sciences</i>
Dramatic Arts English Fine Arts French German Greek Humanities Italian Latin Music Philosophy Public Speaking Religion Russian Spanish	American Studies Economics History Legal Studies Political Science	Astronomy Biology Biophysics Chemistry Geology Mathematics Physics Psychology Science

Candidates must have a minimum college average of 80 to be eligible to be considered for the degree *cum laude*, of 86.00 for the degree *magna cum laude*, and of 90.00 for the degree *summa cum laude*. (2) Candidates must receive the recommendations for the degree *cum laude*, *magna cum laude*, or *summa cum laude* from the department in which they have done their major work. Each department will define the conditions upon which it will be their practice to make recommendations to the Faculty. (3) In the case of the award of *magna cum laude* and *summa cum laude* the Dean and the Committee of Six will review the entire record of candidates and will transmit to the Faculty their recommendations. Only students of marked distinction in both general work and in the field of honor studies will be recommended for the *summa cum laude* degree.

In exceptional cases, upon recommendation of the department in which the candidate has done his major work, the Committee of Six may recommend to the Faculty that a student be awarded a degree of honors for which he does not have the required average.

A student is expected to have a general average of at least 80 percent at the time he is accepted as a candidate for honors in a department or group. However, if the department concerned approves, a student whose average is below 80 percent may become a candidate for the degree with honors.

A candidate for a degree with honors may be permitted, at the discretion of the department in which he is majoring, to substitute in his junior year a conference course for one of his regular three- or four-hour courses, and in his senior year a conference course for one or two of his regular three- or four-hour courses.

MASTER OF ARTS

The degree of Master of Arts is conferred upon students who have received the Bachelor of Arts degree either from Amherst College or from another college which has similar requirements for the Bachelor of Arts degree, and who have met the requirements described below. Application forms and a detailed explanation of the requirements may be obtained from the Dean. The tuition charge for the Master of Arts degree is \$1,300.

REQUIREMENTS

To become a candidate for the Master of Arts degree, students are expected to have had at least a B average or its equivalent in their undergraduate work. They should secure approval of proposed courses of study from the Dean, the department concerned, and the Committee of Six, not later than the June preceding the opening of the college year in which they plan to begin work for this degree.

Candidates are required to complete at least eight semester courses of advanced character, or the equivalent, under the direction of the depart-

ment concerned, to secure grades of at least B in every course, to spend a minimum of two semesters in residence at Amherst College, to prepare a satisfactory thesis, and to pass oral and written comprehensive examinations.

COOPERATIVE DOCTOR OF PHILOSOPHY

A cooperative Doctor of Philosophy program has been established by Amherst, Mount Holyoke, and Smith Colleges and the University of Massachusetts. The degree is awarded by the University of Massachusetts but some and perhaps much — and in a few exceptional cases even all — of the work leading to the degree might be done in one or more of the other institutions.

When a student has been awarded a degree under this program, the fact that it is a cooperative doctoral degree involving Amherst, Mount Holyoke, and Smith Colleges and the University of Massachusetts will be indicated on the diploma, the permanent record, and all transcripts, as well as on the commencement program.

The requirements for the degree are identical to those for the Ph.D. degree at the University of Massachusetts except for the statement relating to "residence." For the cooperative Ph.D. degree "residence" is defined as the institution where the dissertation is being done.

Students interested in this program should write to the Dean of the Graduate School at the University of Massachusetts.

FOUR-COLLEGE COURSES

Amherst has an arrangement with Mount Holyoke College, Smith College and the University of Massachusetts by which any of their regular courses is, under special circumstances, open to Amherst students. In addition, there are certain other *Cooperative Courses*, not necessarily regular courses at any of the institutions, which are, under special circumstances, open to Amherst students.

In general, permission to take any such course will be given only to students who are, or who expect to be, candidates for the degree with honors. In *all* cases, the approval of the student's major department and the Dean is required.

Students interested in such courses will find current catalogs of the other institutions at the Loan Desk of the Library and at the Registrar's Office. Application blanks may be obtained from the Registrar's Office.

Faculty Statement on Intellectual Responsibility

In order to cooperate with the Student Council in its efforts to maintain an honor system at Amherst College, the Faculty has voted the following statement and articles:

A Statement of Intellectual Responsibility Among Students at Amherst College:

The following Articles are an institutional expression of the basic fact that every man's education is the product of his own intellectual efforts. Amherst cannot educate a man who will not educate himself. Amherst sees no value in making its facilities available to a man who avoids the responsibility and opportunity for his own education. Every man who enrolls and remains at Amherst, therefore, understands that to submit work which is not his own violates the purpose of the College and of his presence there. No intellectual community can maintain its integrity or be faithful to its members if violations of its central purpose are for any reason tolerated.

This principle of intellectual responsibility applies to all work done by students.

ARTICLE I

This statement will be perpetuated in the Amherst College Bulletin, Student Handbook, and other publications deemed appropriate. The following affirmation will be printed on the course enrollment cards for every course; it must be signed before enrollment can be considered:

"I have read, understand, and accept the Statement of Intellectual Responsibility Among Students at Amherst College, and agree with this principle as it relates to this course.

..... (signed)"

ARTICLE II

Section 1. Examinations will not be proctored; orderly and honorable conduct of examinations will be the individual and collective responsibility of the students concerned, in accordance with the Statement above.

Section 2. The instructor may be present at examinations at appropriate times to answer any questions that arise.

ARTICLE III

In instances of purported or ascertained violation of the Statement of Intellectual Responsibility, the Student Council will, after proper scrutiny and deliberation, recommend the course of action to be followed, the recommendation being subject to the approval of the President of the College.

ARTICLE IV

The Student Council shall make provision for explaining the Statement of Intellectual Responsibility to incoming freshmen and to new members of the Faculty, and for publicizing and interpreting the Statement to the Student Body during the year. The Student Council will consider any problems of maintaining intellectual responsibility which are brought before them by the students. They will make any recommendations which they deem advisable for action by the Faculty and Administration. At some time each year the Council shall also be responsible for a serious review of the effectiveness of these procedures in promoting the central purpose of the College.

II

Courses of Instruction

Courses of Instruction

1963-1964

a. Freshman courses are numbered 1-20; sophomore courses 21-40; and junior and senior courses 41-80.

b. In general, odd-numbered courses are given in the first semester, and even-numbered courses in the second semester; the letter "S" after a number indicates that the number of the course is an exception to the usual numbering system.

c. Honors courses are offered to eligible juniors and seniors and are numbered 69, 70 and 79, 80 respectively. Election of these courses may be made only by candidates for a degree with honors unless exception is made by the department concerned and by the Dean.

Reading Courses

91, 92. SPECIAL TOPICS (INDEPENDENT READING COURSE)

1-4 credit hrs.

Departments may offer a semester or a year course known as SPECIAL TOPICS in which a student or a group of students study or read widely in a field of special interest. It is understood that this course will not duplicate any other course regularly offered in the curriculum and that the student will work in this course as independently as the director thinks possible.

(Procedure. Before the time of registration the student should consult the teacher in whose field of competence his subject comes and who will direct his work; they will decide the credit to be given, the title to be reported, the nature of the examination or term paper, and will discuss the preparation of a bibliography and a plan of coherent study. In the cases of Freshmen and Sophomores, the Deans will grant approval of election to exceptional students. Freshmen and Sophomores must obtain such approval before consultation with departmental representatives. All students must obtain final approval of the Department before registration.)

Elective in any semester. Two courses, however, may not be taken concurrently.

GROUP READING COURSES.

No credit

Under the direction of a member of the faculty, students may organize themselves into groups to read in a field of special interest. The title of such a course must be reported at the time of registration. At the discretion of the teacher, a final examination may be held or a paper assigned. Teachers must report for each student a final Pass or Fail which will appear on the student's transcript, together with the specific title of the course.

American Studies

Professors COMMAGER, KENNEDY, LATHAM, B. MORGAN, C. MORGAN, MARX, ROZWENC, TAYLOR, WARNE, and ZIEGLER; Associate Professor GREENE; Assistant Professors GUTTMANN, HALSEY, and HAWKINS; Messrs. NICKLASON, REED, and SCHRAG.

American Studies is a program which searches for an understanding of the relations among institutions, ideas, and artistic imagination within the American experience. By combining work in a number of the traditional scholarly disciplines it aims to place the student in a position where he can see and can make some statements about these relations.

A major in American Studies is required to develop a program of courses and independent reading which will enable him to pass a series of intensive written and oral examinations in the spring semester of the senior year. These examinations will cover two aspects of American civilization described as follows:

(1) A major in American Studies is expected to know the main forces which have shaped American life in every period of American history—from the first settlement at Jamestown to our contemporary society. Consequently an American Studies major must understand the basic political and social institutions of every period, the basic forms of economic organization, the competing myths and ideologies, and the programs of social action.

(2) A major in American Studies is expected to have studied the classic writings and other creative efforts in the American intellectual tradition. This includes significant works in literature, art, philosophy, and political and social theory.

Although the Department of American Studies regards the two semester courses in "The History of American Society" (History 33-34) as the nearest equivalent to a foundation course, majors in American Studies are expected to work out for themselves a program of study inside and outside of courses which will enable them to pass the intensive examinations of the senior year. Such a program of study should include a heavy emphasis on history and literature, and a disciplined knowledge of at least one other field *viz.*, economics, political science, sociology, philosophy, art, or music.

All majors in American Studies will be given a reading list which will be made available to them at the end of the sophomore year. At the beginning of the first semester of the senior year all majors in American Studies shall take a written examination on the works which appear on the reading list. Students who fail to perform satisfactorily in this examination in September will not be permitted to take either the *rite* or honors seminar in the senior year. Such students will be required to complete, on their own, an extended list of readings in preparation for an examination at the end of the senior year which will enable the Department of American Studies to determine whether or not they can be recommended for the degree of Bachelor of Arts.

American Studies 72 is required of all majors in American Studies who

are not admitted to the honors program and is to be taken in the senior year.

American Studies 70, 79 and 80 are required of all honors candidates. In conjunction with American Studies 79 and 80, each candidate shall write an original essay on a topic which has been approved by the Department.

21, 22. PROBLEMS IN AMERICAN CIVILIZATION.

Professors GREENE, GUTTMANN, HALSEY, HAWKINS, KENNEDY, MARX, MORGAN, ROZWENC, TAYLOR, WARNE, and ZIEGLER; Messrs. NICKLASON, REED and SCHRAG.

A study of selected problems in American civilization. This course does not provide a survey of American history, but centers attention on a limited number of topics which are treated from various viewpoints, including the political, economic, and cultural. *Required for Sophomores. First and second semesters. Four credit hours each semester.*

24. THE AMERICAN ECONOMY. Professor NELSON. *4 credit hrs.*
(Same course as Economics 24.) *Elective for Sophomores. Second semester.*

25. AMERICAN CONSTITUTIONAL DEVELOPMENT. *4 credit hrs.*
Professor LATHAM.
(Same course as Political Science 25.) *Elective for Sophomores. First semester.*

27. POLITICAL PARTIES. Mr. BOWMAN. *4 credit hrs.*
(Same course as Political Science 27.) *Elective for Sophomores. First semester.*

31. AMERICAN GOVERNMENT. Professor ZIEGLER. *4 credit hrs.*
(Same course as Political Science 31.) *Elective for Sophomores. First semester.*

33. THE HISTORY OF AMERICAN SOCIETY. *4 credit hrs.*
Professor ROZWENC.
(Same course as History 33.) *Elective for Sophomores. First semester.*

34. THE HISTORY OF AMERICAN SOCIETY. *4 credit hrs.*
Professor ROZWENC.
(Same course as History 34.) *Elective for Sophomores. Second semester.*

36. THE HISTORY OF AMERICAN EDUCATION. *4 credit hrs.*
Professor HAWKINS.
(Same course as History 36.) *Elective for Sophomores. Second semester.*

42. LABOR ECONOMICS. Professor WARNE. *4 credit hrs.*
(Same course as Economics 42.) *Elective for Sophomores. Second semester.*
(Omitted 1963-64.)

43. AMERICAN LITERATURE. *3 credit hrs.*
Professor MARX.
(Same course as English 43.) *Elective for Juniors. First semester.*

44. AMERICAN LITERATURE. 3 credit hrs.
 Professor MARX.
 (Same course as English 44.) *Elective for Juniors. Second semester.*
- 45S. AMERICAN ART. Professor C. MORGAN. 3 credit hrs.
 (Same course as Fine Arts 45.) *Elective for Juniors. Second semester.*
47. AMERICAN PHILOSOPHY. Professor KENNEDY. 3 credit hrs.
 (Same course as Philosophy 47.) *Elective for Juniors. First semester.*
48. RELIGION IN AMERICA. Professor B. MORGAN. 3 credit hrs.
 (Same course as Religion 48.) *Elective for Juniors. Second semester.*
56. AMERICAN POLITICAL THOUGHT. Professor KATEB. 4 credit hrs.
 (Same course as Political Science 56.) *Elective for Juniors. Second semester.*
 (Omitted 1963-1964.)
57. THE SOUTH SINCE THE CIVIL WAR. 4 credit hrs.
 Professor HAWKINS.
 (Same course as History 57.) *Elective for Juniors. First semester. Limited to 25 students.*
59. SOCIETY AND POLITICS IN DE TOCQUEVILLE'S AMERICA. Professor ROZWENC. 4 credit hrs.
 (Same course as History 59.) *Elective for Juniors. First semester. (Omitted 1963-64.)*
60. SOCIETY AND POLITICS IN THE ERA OF THE NEW DEAL. Professor ROZWENC. 4 credit hrs.
 (Same course as History 60.) *Elective for Juniors. Second semester. Limited to 15 students.*
61. FOUNDATIONS OF AMERICAN CIVILIZATION. 4 credit hrs.
 Professor GREENE.
 (Same course as History 61.) *Elective for Juniors. First semester.*
62. AMERICAN DIPLOMATIC HISTORY. 3 credit hrs.
 Professor GREENE.
 (Same course as History 62.) *Elective for Juniors. Second semester.*
63. AMERICAN ECONOMIC HISTORY. 4 credit hrs.
 Professor TAYLOR.
 (Same course as Economics 63.) *Elective for Juniors. First semester. Limited to 15 students.*
64. AMERICAN ECONOMIC HISTORY. 4 credit hrs.
 (Same course as Economics 64.) *Elective for Juniors. Second semester. Limited to 15 students.*
65. READINGS IN AMERICAN LITERATURE. 4 credit hrs.
 Professor GUTTMANN.
 (Same course as English 65.) *Requisite: English 43-44. Elective for Juniors. First semester. Seminar course limited to ten students, admission with the consent of instructor.*

66. READINGS IN AMERICAN LITERATURE. *4 credit hrs.*
 Professor MARX.
 (Same course as English 66). Requisite: English 43-44. *Elective for Juniors. Seminar course limited to 15 students. Admission with the consent of the instructor. Second semester.*
68. THE PROGRESSIVE GENERATION. *4 credit hrs.*
 Professor GREENE.
 (Same course as History 68.) *Elective for Juniors. Second semester. Limited to 15 students. (Omitted 1963-64.)*
70. INTRODUCTION TO HONORS WORK IN AMERICAN CIVILIZATION. Professors ROZWENC and GUTTMANN. *4 credit hrs.*
 A study of classic writings in diverse areas of American Civilization plus modern works representing problems of methodology in the various disciplines within the American Studies program. One two-hour seminar weekly. *Elective for Juniors with the consent of the Department. Second semester.*
72. SEMINAR IN AMERICAN CIVILIZATION. *4 credit hrs.*
 Mr. NICKLASON.
 A study of selected topics in American Civilization including problems of methodology in the various disciplines within the American Studies program. One two-hour seminar weekly. *Elective for Seniors with the consent of the instructor. Second Semester.*
73. CONFERENCE COURSE IN AMERICAN INTELLECTUAL HISTORY. Professor COMMAGER. *4 credit hrs.*
 (Same course as History 73.) *Elective for Juniors. First semester. Admission by consent of the instructor only.*
74. CONFERENCE COURSE IN AMERICAN INTELLECTUAL HISTORY. Professor COMMAGER. *4 credit hrs.*
 (Same course as History 74.) *Elective for Juniors. Second semester. Admission by consent of the instructor only.*
79. CONFERENCE COURSE IN AMERICAN CIVILIZATION
 Professors GREENE, GUTTMANN, HAWKINS, MARX, and ROZWENC and Mr. NICKLASON. *6 credit hrs.*
 Honors work in American civilization. *Elective for Seniors with the consent of the instructor. First semester. Limited to fifteen students.*
80. HONORS. *6 credit hrs.*
Elective for Seniors. Second semester.

Asian and African Studies

21. HISTORY OF AFRICA. Professor HESS.

3 credit hrs.

The historical development of native African states from earliest times, the impact of European and other alien influences on the continent, and the emergence of modern independent African states. *Elective for Sophomores. First semester.*

The following regular Amherst College courses fall into the area of Asian and African Studies: Economics 54; History 27, 28, 39, 40 and 65; Political Science 24; Religion 44.

A number of cooperative courses will be offered at neighboring institutions. They include:

CONSTITUTION-BUILDING IN AFRICA. Professor SPIRO.

Comparisons of recent cases in sub-Saharan Africa. *Second semester. Smith College. (Government 46b)*

MAJOR GOVERNMENTS IN ASIA. Professor HOUN.

First semester. University of Massachusetts.

GOVERNMENT OF THE MIDDLE EAST AND NORTH AFRICA.

Professor ABU-LUGHOD.

First semester. Smith College. (Government 37b)

ECONOMIC DEVELOPMENT IN AFRICA SOUTH OF THE SAHARA. Professor McCARTNE.

Second semester. Smith College. (Economics 393b)

A general statement on four-college courses will be found on page 8. A complete list of course descriptions and enrollment information may be obtained from the Registrar.

Astronomy

Professor LINNELL; Associate Professors OLSON and YOSS;
Assistant Professor KOCH

A joint Astronomy Department provides instruction at Amherst, Mount Holyoke and Smith Colleges and the University of Massachusetts. Introductory courses are taught separately at the four institutions; advanced courses are taught jointly.

ASTFC indicates courses offered by the Four College Astronomy Department. These courses are listed in the catalogs of all four institutions.

Two alternative programs are available leading to a degree in astronomy. One is the honors program, designed to meet the needs of the student who wishes to prepare for graduate work in astronomy or astrophysics,

or who wishes a combined honors program with mathematics or physics. The other is the departmental major, for the student who wishes to study astronomy largely for its cultural value, but who does not plan graduate study.

The facilities of all four institutions are available for thesis work. Should the needs of the thesis project so dictate, the department may arrange to obtain special materials from other observatories.

Honors: By the end of his sophomore year, the student should have completed Astronomy 22, Physics 24, and Mathematics 3. To arrange the balance of his undergraduate program, the student should consult with the department.

Major: This program requires less extensive training in physics and mathematics. A student interested in an astronomy major should choose his electives in consultation with the department.

Since students taking comprehensive examinations in astronomy will not all have had similar sets of courses, the comprehensive examination will cover areas of astronomy and related fields chosen to fit the preparation of the individual student. A student may elect to take a written or an oral examination, prepared by members of the department. If written, the examination will extend for a nominal period of three hours; if oral, the examination time will be shorter at the discretion of the examiners.

22. (ASTFC 22) DESCRIPTIVE ASTRONOMY. 4 credit hours.

Professors LINNELL and KOCH.

Four topics of general astronomical and philosophical interest will be considered. They are: (1) Time, (2) The Origin of the Solar System, (3) The Exploration of our Galaxy, (4) Cosmology.

Part of the laboratory work will involve observing with the 18-inch refractor and 4-inch camera.

Three hours classroom and one laboratory period per week. *Elective for Sophomores. Second semester.*

31. (ASTFC 31) STATISTICAL ASTRONOMY. 3 credit hrs.

Professor Yoss.

Stellar motions as derived from trigonometric, spectroscopic, and statistical parallaxes, proper motions, and radial velocities. Stellar luminosity functions, and related topics. Three hours of classroom work per week. Requisite: Science 1, 2; Astronomy 22. *Elective for Juniors. First semester. (Omitted 1963-64.)*

32. (ASTFC 32) GALACTIC STRUCTURE. 3 credit hrs.

Professor Yoss.

Properties of the galactic system revealed by star clusters, the general distribution of stellar types, and the interstellar medium. Kinematics and dynamics of galactic motion. Recent results from the field of radio astronomy. Three hours of classroom work per week. Requisite: Science 1, 2;

Astronomy 22. *Elective for Juniors. Second semester. (Omitted 1963-64.)*
Mt. Holyoke—M, W 1:45-3:00, Observatory.

33. (ASTFC 33) CELESTIAL MECHANICS. 3 credit hrs.
Professor KOCH.

Development of the two body problem and the restricted three body problem as applied to the solar system and stellar systems. Three hours of classroom work per week. Requisite: Astronomy 22, Mathematics 3. *Elective for Juniors, First semester. (Omitted 1963-64.)*

Amherst—M, W 3:30-4:45, Morgan.

34. (ASTFC 34) DOUBLE STARS. Professor KOCH. 3 credit hrs.

Analysis of the orbits of double stars and discussion of their physical characteristics. Three hours of classroom work per week. Requisites: Astronomy 22, Mathematics 3. *Elective for Juniors, Second semester. (Omitted 1963-64.)*

Amherst—M, W 3:30-4:45, Morgan.

37. (ASTFC 37) ASTRONOMICAL OBSERVATION, REDUCTION,
AND ANALYSIS I. 3 credit hrs.

The Staff.

Fundamental astronomical catalogues and their uses; theory of the transit telescope; visual observation with the equatorial telescope and the transit; photography with the equatorial telescope; photographic photometry.

Three hours of classroom work per week. Some classroom hours will be replaced by observing sessions to be arranged.

Required of all astronomy majors, and registration restricted to these students. Requisite: Astronomy 22. *Elective for Juniors, First semester.* Location to be arranged. T, Th 2:15-3:30.

38. (ASTFC 38) ASTRONOMICAL OBSERVATION, REDUCTION,
AND ANALYSIS II. 3 credit hrs.

The Staff.

Astronomical spectroscopy including line identification, plate calibration and radial velocity determination; photography of objective grating spectra; photoelectric photometry including determination of atmospheric extinction and extrapolation to stellar color indices and magnitudes outside the atmosphere; photoelectric light curves of variable stars.

Three hours of classroom work per week. Some classroom hours will be replaced by observing sessions to be arranged.

Required of all astronomy majors, and registration restricted to these students. Requisite: Astronomy 22. *Elective for Juniors, Second semester.* Location to be arranged. T, Th 2:15-3:30.

41. (ASTFC 41) ASTROPHYSICS I: Professor LINNELL. 3 credit hrs.

Gas laws and nuclear reactions as applied to the structure of stellar interiors. Evolution of stars. Three hours of classroom work per week.

Requisite: Physics 24. *Elective for Juniors. First semester. (Omitted 1963-64.)*
University—T, Th 1:45-3:00.

42. (ASTFC 42) ASTROPHYSICS II. Professor OLSON. 3 credit hrs.

Study of the emitting and absorbing properties of stellar atmospheres; approximate solutions of the equation of transfer for continuum and line radiation; determination of the physical properties of stellar atmospheres with special emphasis on the sun; determination of atmospheric abundances of elements. Three hours of classroom work per week. Requisite: Physics 24. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

Smith—T, Th 1:45-3:00.

43. (ASTFC 43) MATHEMATICAL ASTRONOMY I. 4 credit hrs.

The Staff.

Basic topics in astronomy. The restricted three body problem; advanced concepts in mechanics applicable to astronomical problems; stellar motions and stellar statistics. Requisite: Astronomy 22, Physics 51. *Elective for Juniors and Seniors. First semester.*

Amherst — M, F 2:00-4:00, MORGAN.

44. (ASTFC 44) MATHEMATICAL ASTRONOMY II. 4 credit hrs.

The Staff.

Basic topics in astronomy and astrophysics. Astronomical topics in atomic spectroscopy. Physics of radiation and radiative transfer. Basic considerations in the treatment of stellar interiors and atmospheres. Requisite: Astronomy 43. *Elective for Juniors and Seniors. Second semester.*

Amherst — M, F 2:00-4:00, MORGAN.

79-80. CONFERENCE COURSES. The Department. 6 credit hrs.

Required of majors and honors students. *Elective for Seniors. First and second semesters.*

Biology

Professors KIDDER, PLOUGH (emeritus), SCHOTTÉ, and WOOD; Associate Professors HEXTER* and YOST; Assistant Professors BROWER*, COOK and LEADBETTER.

Note: A major in biology will consist of at least 24 semester hours in biology together with any 8 semester hours in chemistry. Under certain conditions these specific requirements may be modified with the approval of the department. Any one of the sophomore science courses (Science 22, 23 or 23S) counts as 4 semester hours of biology toward a major.

Honors work in biology is intended to offer an introduction to the purposes and methods of biological research. It is an excellent preparation for those students who wish to become professional scientists or who wish to acquire first-hand knowledge of the methods of modern science.

* Absent on leave 1963-64.

Candidates for the degree with honors in biology must have completed by the beginning of the senior year a minimum of 16 semester hours in biology; sophomore courses may be counted. Honors candidates must elect Biology 79, 80 and complete by the end of senior year a minimum of 32 semester hours in biology.

The work for honors in biology consists of two main activities: (a) participation in a general and in a specialized seminar course in which the candidate reports on papers from current scientific periodicals; (b) an original investigation under the direction of some member of the staff. In spring of his senior year the candidate takes a comprehensive examination covering the whole field of biology. He also writes a thesis presenting the results of his research to the whole Department.

All students must take a comprehensive examination by the second semester of the senior year. The examination, which will cover the different areas of biology, may be either oral, written or a combination of the two, as determined by the department. To aid in the preparation for the comprehensive examination, a reading list will be distributed to all majors at the time of registration.

22. Same Course as Science 22.

4 credit hrs.

23, 23S. Same Course as Science 23, 23S.

4 credit hrs.

May be elected as a 3 hour course without laboratory by juniors and seniors with the approval of the department. *Science 23S is omitted 1963-64.*

25. ECOLOGY. Professor COOK.

4 credit hrs.

A study of the interrelations of living organisms and their environment. The natural regulation of animal numbers, problems of populations, natural selection, and the origin and distribution of species will be discussed from an experimental approach. Three hours classroom and four hours laboratory or field work per week. Requisite: one semester in biology or the consent of the instructor. *Elective for sophomores. First semester.*

26. COMPARATIVE ZOOLOGY.

4 credit hrs.

A comparative study of adaptation, behavior, and physiology in the animal kingdom. Problems of respiration, feeding, protection, sensory mechanisms, reproduction, and principles of behavior will be discussed. Three hours of classroom and four hours of laboratory or field work per week. *Elective for sophomores. Second semester. (Omitted 1963-64.)*

41S. COMPARATIVE ANATOMY. Professor WOOD.

4 credit hrs.

A study of the anatomy of vertebrates and a review of vertebrate evolution. Three hours classroom and four hours laboratory work per week. Requisite: One semester of biology. *Elective for Juniors. Second semester.*

42. BOTANY. Professor YOST.

4 credit hrs.

The relation of the study of plants to certain fundamental problems in biology. Selected topics covered are the ultra-structure of cells, photosynthesis, water transport, internal and environmental control of growth and

Second-class postage paid at Amherst, Massachusetts

development and evolution. Three hours of classroom and four hours of laboratory per week. Requisite: one semester each of biology and chemistry. *Elective for juniors (and sophomores with the consent of the instructor). Second semester.*

43. EMBRYOLOGY. Professor SCHOTTÉ. 4 credit hrs.

A description of developmental processes in the vertebrates, with an introduction to the physiology of development. Four hours classroom and two hours laboratory work per week. Requisite: One semester of biology. *Elective for Juniors. First semester.*

44. GENETICS. Professor COOK. 4 credit hrs.

The facts of heredity, basic and advanced. Three hours of classroom and four hours of laboratory work per week. Requisite: one semester of biology. *Elective for juniors (or sophomores with the consent of the instructor). Second semester.*

48. EXPERIMENTAL MORPHOLOGY. 4 credit hrs.

Professor SCHOTTÉ.

An analysis of the problems of differentiation, especially the role of hormones in morphogenesis and regeneration. Three hours classroom and four hours laboratory per week. Requisite: One semester in Biology. *Elective for Juniors. Second semester.*

51. BIOCHEMISTRY. Professor KIDDER. 4 credit hrs.

A study of the fundamental chemical processes of living matter. Three hours classroom and four hours laboratory work per week. Requisite: One semester of biology and organic chemistry (which may be taken concurrently). *Elective for Juniors. First semester.*

53. CELLULAR PHYSIOLOGY. Professor YOST. 4 credit hrs.

A study of cellular function in relation to structure, with special emphasis on surfaces, cellular energetics, and the reactions of macro-molecules. Three hours classroom and four hours laboratory work per week. Requisite: one semester each of biology and chemistry. *Elective for Juniors. First semester.*

54. BACTERIOLOGY. Professor LEADBETTER. 4 credit hrs.

A study of the bacteria, yeasts and molds, their physiological activities and genetic relationships. Two hours classroom and eight hours laboratory work per week. Requisite: Two semesters in biology and one course in chemistry. *Elective for Juniors. Second semester. Limited to twenty students.*

55. VERTEBRATE PALEONTOLOGY. Professor WOOD. 4 credit hrs.

The evolution of vertebrates as shown by the study of fossils, and the relationship of environment to evolution. Three hours classroom and four hours laboratory work per week. (Same course as Geology 55.) Requisite: One semester in Biology or Geology 22. *Elective for Juniors. First semester.*

71. BIOLOGY OF VIRUSES. Professor LEADBETTER. *4 credit hrs.*

A classroom and seminar review of some recent studies of viruses, with special reference to the mode of virus multiplication. Three hours of classroom and four hours of laboratory work per week. Requisite: two semester courses in biology. *Elective for seniors with consent of the instructor. First semester.*

79, 80. BIOLOGY HONORS. The Staff. *4 credit hrs. first semester
8 credit hrs. second semester*

All honors students will take this course. The work consists of a combined seminar, specialized seminars, and individual research. Students will elect one of the following specialized seminar courses, with the approval of the department: Biochemistry and Microbiology, Evolution, Experimental Morphology, Genetics, and Radiation Biology. The course is designed for honors candidates, but is open to other advanced students with the consent of the Department. Requisite: Four semester courses in biology. *Elective for seniors. First and second semesters.*

Biophysics

Advisory Committee: Professor BENSON; Associate Professors KROPF (Chairman) and YOST.

A student may receive the A.B. degree from Amherst with an interdepartmental major in biophysics. This program is designed for a few capable students who wish the breadth of experience this program provides or who wish to prepare for graduate study in this field. The course of study is organized from the course offerings of the various science departments whose disciplines bear on the active work in the area of biophysics. Only the honors course is offered as a course in biophysics.

By the end of his sophomore year, the student should have completed Biology 22, Chemistry 21 and 24, Mathematics 3, and Physics 24 or their equivalents. During his junior and senior year, his elections should include Biology 44 and 53, Chemistry 41, 42, 43, 44 and 46, Physics 51, 52 and 60S and Mathematics 31. He should, if possible, also elect one or two more courses in either Biology or Physics, depending upon his interest. He should consider electing one or two junior level courses during his sophomore year if that is feasible. This will allow him more flexibility in his junior and senior years. (In any case, it is very important that he consult with a member of the advisory committee as early in his academic career as possible to determine the proper course elections.) He will choose his thesis advisor from those faculty members, in the various science departments, who are

interested in this program and willing to direct a thesis in this area. The comprehensive examination will be administered by a committee made up of representatives from the science departments involved in the program.

79-80. SENIOR HONORS COURSE.

2-6 credit hrs. per semester.

Minimum total 8 credit hours.

The work consists of a seminar dealing with problems of current interest in biophysics and the preparation of a thesis based on an individual investigation under the direction of a faculty member.

Chemistry

Professors BEEBE and WHITNEY; Associate Professor KROPF; Assistant Professors LANGFORD, RICHARDS and SILVER

A student considering a major in chemistry should seek the advice of a member of the Department as early as possible, preferably during his freshman year. This will help the student elect a program which best fits his interests and abilities and which makes full use of his previous preparation. Different programs can be arranged for students considering careers in chemistry, biochemistry, biophysical chemistry, medical research, medicine, and secondary school science teaching.

The minimum requirements for a major in chemistry are Science 21, Chemistry 24, 41, 42, 43, 44, 46, Mathematics 3, and Physics 23 or 24. Chemistry 25 plus a more advanced course may be substituted for Science 21 and Chemistry 24. In certain cases advanced placement may be used as a prerequisite for Chemistry 41 or Chemistry 43.

A candidate for the degree with honors must also elect as a minimum Chemistry 79, 80 and Chemistry 71-72. Normally an honors candidate will complete the courses required of a major by the end of the junior year. It is highly desirable that an honors candidate, especially if his field of interest is physical chemistry, elect Physics 24, and also one or more additional semesters of physics and Mathematics 31 and 32. Honors candidates will attend the chemistry seminar during their junior and senior years, participating in it actively in the senior year. At this seminar, discussions of topics of current interest will be conducted by staff members, visitors and students.

In the senior year an individual thesis problem will be selected by the honors candidate in conference with some member of the Department. Current areas of research in the department are: organic reaction mechanisms, inorganic reaction mechanisms, biophysical chemistry, surface chemistry, and gas phase reaction kinetics. Each candidate will submit a thesis based upon his research work. Recommendations for the various levels of honors will be made by the Department on the basis of the thesis work and the comprehensive examination.

For a student planning graduate work in chemistry, honors, Chemistry 26 and a reading knowledge of German and/or Russian are desirable. (A

student may satisfy the minimum standards of the American Chemical Society by taking an honors program including Chemistry 26 and by obtaining a reading knowledge of German.)

21. Same Course as Science 21. 4 credit hrs.
Professors BEEBE, WHITNEY, LANGFORD and SILVER.

24. INORGANIC AND ANALYTICAL CHEMISTRY. 4 credit hrs.
Professors BEEBE and RICHARDS.

A study of the chemistry of inorganic substances with special emphasis on ionic equilibria as met in chemical analysis. The methods of quantitative chemical analysis are applied to provide experimental data for testing certain physical chemical principles. Three hours classroom and four hours laboratory work per week. Requisite: Science 21. *Elective for Sophomores. Second semester.*

25. GENERAL AND ANALYTICAL CHEMISTRY. 4 credit hrs.
Professor RICHARDS.

A study of chemical substances, their structure, their properties and their reactions. This course is intended as a one-semester preparation for Chemistry 41 and 43. Students who receive credit for Chemistry 25 may not receive credit for either Science 21 or Chemistry 24. Three hours classroom and four hours laboratory work per week. *Elective, with consent of instructor, for Sophomores. First semester.*

26. QUANTITATIVE ANALYTICAL CHEMISTRY. 4 credit hrs.
Professor LANGFORD.

The discussion of methods for separation and determination of inorganic substances is continued from Chemistry 24 with emphasis on analysis as an application of equilibrium principles. Electrical and optical methods of chemical analysis are introduced in the lecture and the laboratory. Two hours classroom and eight hours laboratory work per week. Requisite: Chemistry 24 or 25. *Elective for Sophomores. Second semester.*

41. PHYSICAL CHEMISTRY. Professor KROPF. 4 credit hrs.

A study of chemical thermodynamics, kinetics and atomic and molecular structure with application to systems of interest to chemists, physicists and biologists. Four hours of lectures and discussions per week. Requisite: Chemistry 24 or 25, Mathematics 3, and Physics 23 or 24, the latter being recommended for those going on in physical chemistry. *Elective for Juniors. First semester.*

42. PHYSICAL CHEMISTRY. Professor KROPF. 3 credit hrs.

A continuation of Chemistry 41. Three hours of lectures and discussions per week. Requisite: Chemistry 41. Chemistry 46 should be taken concurrently. *Elective for Juniors. Second semester.*

43. ORGANIC CHEMISTRY. Professors WHITNEY and SILVER. 4 credit hrs.

General theory of organic chemistry, preparation of typical organic compounds, and introduction to organic qualitative analysis. Three hours

classroom and four hours laboratory work per week. Requisite: Chemistry 24 or 25. *Elective for Juniors. First semester.*

44. ORGANIC CHEMISTRY. Professors WHITNEY and SILVER.

4 credit hrs.

A continuation of Chemistry 43. Requisite: Chemistry 43. *Elective for Juniors. Second semester.*

46. PHYSICAL CHEMISTRY LABORATORY. 1, 2, or 3 credit hrs.

Professors KROPF and RICHARDS.

Experimental studies designed to illustrate the principles discussed in Chemistry 41-42. Two afternoons a week. Requisite: Chemistry 41 and concurrent registration in Chemistry 42. Chemistry majors should register for 3 credit hours. *Elective for Juniors. Second semester.*

71-72. MOLECULAR STRUCTURE

AND REACTION MECHANISM.

4-6 credit hrs.

Professors LANGFORD, RICHARDS and SILVER.

Problems in molecular structure and reaction mechanism that are common to both organic chemistry and inorganic chemistry will be covered.

The laboratory work during the first semester of the course will encourage the student to integrate techniques from his inorganic, organic and physical laboratory experience by applying them to a series of chemical problems. Two hours lecture per week in each semester and 6 hours laboratory per week in the first semester (four hours credit first semester, 2 hours credit second or two hours each semester without the laboratory). Requisite: Chemistry 41, 42, 43 and 44. *Elective for Seniors.*

79. HONORS COURSE. The Department.

2-6 credit hrs.

Elective for honors candidates, and for others with the consent of the Department.

80. HONORS COURSE. The Department.

6 credit hrs.

Elective for honors candidates, and for others with the consent of the Department.

Classics

Professors HUMPHRIES and MOORE; Assistant Professor MARSHALL;
Mr. DOLIN.

Note: All courses offered by the Department which are numbered 4 or higher may be used to satisfy the sophomore humanities requirement.

All courses offered by the Department may be counted toward a major except those numbered 1 and 2. A major may be entirely in Greek or entirely in Latin and will then consist of eight semester courses, two of which may be in related fields. A major in Classics will consist of eight semester courses in the Classics, which may be divided in any proportion between Greek and Latin. except that not less than two may be taken in either

language. Every *rite* student majoring in the Classics Department, whether in Classics, Greek, or Latin, will write a comprehensive examination in the spring of his senior year. This examination will in general resemble the honors examination described below, except that of course there will be no questions specifically on the candidate's honors work.

Honors may be awarded to those candidates who major in Greek or in Latin or in Classics and who take eight semester courses in the Department. Every honors candidate must include in his program those courses numbered 41, 42, 79 and 80 in either Greek or Latin. He must submit a long essay (6000-7000 words) on some topic connected with his honors work and approved by the Department. He must have read extensively in Greek or Latin literature or both. He must also read independently, i.e., not as a part of the work in a course, approximately 50 pages of some Greek or Latin text selected with the approval of the Department. Early in May he will be given a written examination covering: a) his honors work; b) his reading in the Classical literatures. The emphasis in this examination will be on the literary and historical interpretation of major authors; there will be considerable latitude of choice between various optional questions. The award of honors will be determined by the quality of the candidate's course work, of his essay, and of his performance in the general examination.

The Department will cooperate with other departments in giving combined majors with honors.

The statement of requisites given below is intended only to indicate the degree of preparation necessary for each course, and exceptions will be made in special cases.

English

Professors BAIRD, CRAIG, DEMOTT*, HUMPHRIES, MARX, and McKEON;
Associate Professor CODY; Assistant Professors CAMERON, COLES, GUTTMANN, HEATH, and PRITCHARD*; Messrs. BILLINGS, FARNHAM, GIRSCH, HILL, and TOWNSEND.

Note: For Classes 1964 and 1965 all English majors are required to elect English 21-22, English 63-64, and four other semester courses, exclusive of English 1-2, offered or approved by the English Department.

Candidates for honors in English are required to complete the following courses: English 21-22, English 25-26, English 49, English 63-64, English 70S, English 79-80.

Beginning with the Class of 1966, all students majoring in English must elect English 21-22 and eight other semester courses offered or approved by the English Department; among these eight other courses the English

* Absent on leave 1963-64.

major must elect English 41 or English 42, and one of the following: English 49, English 53, English 57. Candidates for honors in English, in addition to fulfilling the preceding requirements, must elect English 25-26, English 70, and, in their senior year, English 79-80.

English 21, 22, 25 or 26 may be taken in satisfaction of the sophomore humanities requirement.

The comprehensive examination in English, required of both majors and honors candidates, will be given in January of the senior year. It will examine the student in two general ways.

In one way the examination will be factual, objective, informational. Its purpose is to promote those regular habits of study through which the student of literature as a matter of course acquaints himself with such matters of fact as authors' names and dates, exact titles and dates of major works, the common varieties of verse, major literary forms, etc.

In another way the examination will test the student's awareness of the historical development of English and American literature. It will do so by requiring him to arrange in chronological order, to date as closely as he can, and to characterize briefly with respect to their periods a number of passages in both verse and prose from the 16th century to the present. Some passages will be from works that all candidates will have read, selected from a reading list distributed at the end of sophomore year. Some passages will not be drawn from the reading list. They will be characteristic of the periods in which they were written and will parallel in form or style contemporaneous works on the list, but they will be treated "at sight"—they will come from works that few candidates will be likely to have read. The reading list for the comprehensive examination includes required works (insufficient for passing the examination) together with suggestions for further reading.

The examination as a whole will ascertain whether students of American and English literature know, in the simplest and most obvious terms, where they have been and what they have been reading in their preceding semesters of study.

Fine Arts

Professors C. MORGAN, ROGERS, and TRAPP; Associate Professor SCHMALZ;
Mr. SERENYI

Note: A major in fine arts consists of six semester courses in the department, including Fine Arts 23 or 26 and Fine Arts 25 or 25S and two semester courses in allied fields. Honors in fine arts will include the foregoing with the addition of Fine Arts 79-80. Fine Arts 25 or 25S is normally the prerequisite for all advanced courses in the historical aspect of the subject except for Fine Arts 42; and Fine Arts 23 or 26 is normally the prerequisite for all advanced courses in the technical aspects of the field.

In view of the diversity of elections within the major and the opportunity of applying credit for courses taken at neighboring institutions towards the fulfillment of the major, the Fine Arts Department will devise comprehensive examinations appropriate to the course elections of the individual student.

Fine Arts 25 or 25S may be used in satisfying the Sophomore humanities requirement.

23. ELEMENTARY TECHNIQUE AND DESIGN. 3 credit hrs.

Professor ROGERS.

Design, composition and line and form drawing in pencil, charcoal, crayon, pen and ink, and chalk. One lecture and two two-hour laboratory periods per week. No previous training required. *Elective for Sophomores. First semester.*

24. WATERCOLOR. Professor ROGERS. 3 credit hrs.

Elementary color theory and technique of water color painting. Requisite. Fine Arts 23 or the consent of the instructor. One lecture and two two-hour laboratory periods per week. *Elective for Sophomores. Second semester.*

25. SURVEY OF THE HISTORY OF ART. 3 credit hrs.

Professor SCHMALZ.

The development of the major arts from the earliest time to the present day, with a special emphasis on the manner in which they reflect the successive civilizations that produced them. Three hours of classroom work per week. *Elective for Sophomores. First semester.*

25S. INTRODUCTION TO THE HISTORY OF ART. 3 credit hrs.

Professor TRAPP.

A topical examination of works of painting, sculpture and architecture selected from a variety of contexts intended to develop the student's ability to respond to the individual work of art in critical, as well as historical terms. Three hours of classroom work per week. *Elective for Sophomores. Second semester.*

26S. INTRODUCTORY STUDIO. Professor TRAPP. 3 credit hrs.

A series of projects in drawing and design to introduce fundamental problems of description, organization, and artistic expression. These projects will relate to selected topics in art history, with the aim of correlating creative experience with history and criticism. Various drawing mediums and oil painting will be introduced. One three-hour class period per week, plus outside reading and practice assignments. No prior studio experience is required or special talent expected. *Elective for Sophomores. First semester.*

41. MAJOR ARCHITECTURAL DEVELOPMENTS FROM THE
MIDDLE AGES TO MODERN TIMES. 3 credit hrs.

Mr. SERENYI.

A careful consideration of the major styles and examples of European architecture from the 10th to the 18th centuries. Particular attention is given to the interpretation of architectural imagery as a reflection of the human concerns of a given period. Three hours of classroom work per week. *Elective for Juniors. First semester.*

42. FOUR GREEK SITES. Professor C. MORGAN. 3 credit hrs.

A study of Athens, Corinth, Delphi and Olympia with especial reference to their development and their contribution to the art and culture of classical civilization. Three hours of classroom work per week. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

43. RENAISSANCE ART. Mr. SERENYI. 3 credit hrs.

A selective examination of the form and content of European art from the early 15th to the end of the 16th centuries, with emphasis upon the major artists of Italy. Three one hour lectures per week. Requisite: Fine Arts 25 or 25S, or permission of the instructor. *Elective for Juniors. First semester.*

45S. AMERICAN ART. Professor C. MORGAN. 3 credit hrs.

American architecture, sculpture and painting in America from the 17th century to the present day. Three hours of classroom work per week. *Elective for Juniors. Second semester.*

46. ANCIENT ARTS. Professor SCHMALZ. 3 credit hrs.

A comparative study of the emergence, development and diffusion of artistic styles in East and West from Pre-Historic times to the Early Christian era. Three hours of classroom work per week. *Elective for Juniors. Second semester.*

48. OIL PAINTING. Professor TRAPP. 3 credit hrs.

A series of studio projects exploring a variety of techniques and forms of expression in oil painting. Relationship with master works will be considered where relevant, but the emphasis will increasingly stress the development

of the student's individual powers of observation and interpretation. Two two-hour studio periods per week. Requisite: Fine Arts 23 or 26 or permission of the instructor. *Elective for Juniors. Second semester.*

49S. MICHELANGELO. Professor C. MORGAN. 1 credit hr.

A study of the artist, his works and his background. One lecture a week and reading. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

50. BAROQUE AND ROCOCO ART. Professor SCHMALZ. 3 credit hrs.

A study of major figures and movements in European art of the 17th and 18th centuries. Two hours of classroom work and one afternoon meeting of at least two hours per week. Requisite: Fine Arts 25 or 25S or permission of instructor. *Elective for Juniors. Second semester.*

55. PROBLEMS IN MODERN EUROPEAN ART. 3 credit hrs.

Professor TRAPP.

A selected examination of major figures and movements in the development of European painting from Romanticism to the present, with emphasis upon problems in criticism. Two one-hour lecture periods per week and one weekly afternoon meeting of approximately two hours for discussion. Outside reading and written assignments. Requisite: Fine Arts 25 or 25S, or permission of the instructor. *Elective for Juniors. First semester.*

56. PROBLEMS IN MODERN ARCHITECTURE. 3 credit hrs.

Mr. SERENYI.

An interpretive study of the nature and meaning of European and American architecture of the 19th and 20th centuries, with special reference to more recent developments. The course will chiefly be concerned with relating architecture to the historical, social and philosophical currents of modern times. Two one-hour lectures and one seminar session per week. Requisite: Fine Arts 25 or 25S, or permission of the instructor. *Elective for Juniors. Second semester.*

57. PROBLEMS IN CRITICISM. Professor SCHMALZ. 3 credit hrs.

A study of original works of art, chiefly from the College Collections, intended to sharpen visual perception, establish critical principles and clarify verbal judgments. Studio exercises will supplement lectures and discussions. Requisite: 25 or 25S or 26S or consent of the instructor. Two two-hour meetings per week. *Elective for Juniors. First semester.*

58. TOPICS IN ART HISTORY. Mr. SERENYI. 3 credit hrs.

A critical examination of a variety of art historical literature dealing with painting, sculpture and architecture. The chief aim of the course is to provide a deeper understanding of the methods, purpose and meaning of art history and its relationship to the history of ideas. Requisite: Fine

Arts 25 or 25S, or permission of the instructor. *Elective for Juniors. Second semester.*

79, 80. SPECIAL STUDIES FOR STUDENT MAJORING IN
FINE ARTS. 4 credit hrs.

French

Professors FRENCH, FUNNELL*, and TURGEON; Associate Professors CARRE and GIORDANETTI; Assistant Professor WALDAUER; Mr. ARCHAMBAULT; and Assistants.

Note: All rite majors in French are required to elect 30 semester hours of courses offered or approved by the department, including French 7 and 8, but excluding French 1 and 3. All honors candidates are required to elect courses 7 or 8, 10 or 12, 43, 44, 49, 50, 79 and 80. This course program may be adjusted in certain cases. The comprehensive examination, required of all majors, is given in May of the senior year. In addition, candidates for departmental honors must present a thesis and, beginning with the class of 1964, sustain an oral examination on the thesis. A reading list will be furnished to aid in preparation for the examination.

A combined major in two languages may be arranged by consultation with the department. For a student whose primary foreign language is French, the major must include twenty credit hours in French exclusive of French 1 and 3; in the second language it must include ten hours, of which at least three must deal with literature. A comprehensive examination covering both fields will be given. A reading list will be made up to suit individual cases to aid in the preparation for the examination.

Requirements for Sophomores in Humanities. The following courses are approved as satisfying the Humanities requirement in sophomore year: any course numbered above 5, except French 10, 12, 21 and 22.

1. ELEMENTARY COURSE. 4 credit hrs.

Professor TURGEON and assistants.

Grammar, pronunciation, oral practice. Three hours per week for explanation and demonstration, four hours per week in small sections and laboratory for oral practice. *Elective for Freshmen. First semester.*

Geology

Professors BAIN and FOOSE; Associate Professor BROPHY.

Note: A major in geology consists of twelve semester hours in related subjects approved by the Department and twenty semester hours in geology which are divided into three blocks and arranged to make a sequence. Eight semester hours of Geology 21, and Geology 22, are fundamental. An additional 8 semester hours are essential to progress into an advanced field of geology. Four semester hours in an advanced field are required for a sequence. Science 21-22 are considered related subjects. Other related courses will be from that field of biology, chemistry, mathematics or physics, advantageous to satisfactory progress in the advanced field selected for a major study.

The Department offers four sequences leading to a major in Geology. The sequences, and appropriate advanced subjects, are mineral studies (45), structural geology (41), geology of sedimentary rocks (44), and paleontology (49 or 56).

A student may declare his intention to major at any time up to the end of his sixth semester. At that time he should have completed, or have arranged to complete, courses which will enable him to examine independently most problems in the field of his sequence.

The comprehensive examination in Geology shall be a written and oral examination not to exceed five hours in length. The examination is divided into two parts. Part I, of three hours duration, will encompass those subjects considered to form a basis of knowledge in the science. Part II, of two hours duration, will consider the major phase of the science elected by the student, and will include the ancillary courses.

Candidates for the degree with honors must have completed a sequence by the end of their seventh semester, and undertake a program of individual study as part of Geology 80.

Attention of students intending to proceed to graduate school is drawn to the requirements by many institutions and the National Science Foundation that an applicant take the graduate record examination and that the candidate for an advanced degree have a reading knowledge of two modern

languages from the group French, German, and Russian. A thorough knowledge of Geology 21-22, 23-24 will afford coverage for 85% of the graduate record examination, and should be completed with a grade of B before applying to take this test.

21. PRINCIPLES OF GEOLOGY. Professor FOOSE. 4 credit hrs.

An introductory study of the historical development of the science, and the processes modifying the surface form and internal structure of the earth. Four hours classroom and two hours laboratory work per week. Laboratory will be held in the field when weather permits. *Elective for Sophomores. First semester.*

21S. PRINCIPLES OF GEOLOGY. Professor FOOSE. 4 credit hrs.

Same as 21. *Elective for Freshmen. Second semester.*

22. HISTORICAL GEOLOGY. Professor BAIN. 4 credit hrs.

The history of the development of the continents, the succession of plants and animals, and the evolution of life during the geologic past. Four hours of classroom and two hours laboratory work per week. Requisite: Geology 21. *Elective for Sophomores. Second semester.*

22S. HISTORICAL GEOLOGY. Professor BAIN. 4 credit hrs.

(Same course as Geology 22.) *Elective for Sophomores. First semester.*

23. MINERALOGY. Professor BROPHY. 4 credit hrs.

A study of minerals and crystals including recognition, formation, occurrence, and use, and an introduction to the nature of crystalline matter. Three hours of classroom and four hours laboratory work per week. *Elective for Sophomores. First semester.*

24. PETROLOGY. Professor BROPHY. 4 credit hrs.

A systematic study of sedimentary, igneous, metamorphic and hydrothermal rocks, their origins and physicochemical relationships. Three hours of classroom and four hours laboratory per week. Requisite: Geology 21 and Geology 23. *Elective for Sophomores. Second semester.*

30. MINERALS IN MODERN AFFAIRS. 2 credit hrs.

Professor BROPHY.

Minerals, their properties, recognition, distribution, and role today. This course is designed for the non-science major. Two hours classroom and one laboratory hour per week. *Elective for Sophomores. Second semester.* (Not given for credit for students taking any other course in geology.)

41. STRUCTURAL GEOLOGY. Professor FOOSE. 4 credit hrs.

A descriptive and analytical study of sedimentary and igneous rock structures, and of the causes of deformation within the context of regional tectonic frameworks. Three hours classroom and four hours laboratory each week. *Elective for Juniors with the consent of the instructor. First semester.*

44. SEDIMENTOLOGY AND STRATIGRAPHY.

4 credit hrs.

Professor BAIN.

A study of the features of modern sediments and the interpretation of sedimentary rocks and occurrence of resources in stratified rocks. Three hours classroom and four hours laboratory work per week. Requisite: Geology 22. *Elective for Juniors. Second semester.*

45. MINERAL DEPOSITS. Professor BAIN.

4 credit hrs.

A study of the origin and distribution of bodies that contain minerals essential to modern industrial life. Three classroom hours and four laboratory hours per week. Requisite: Geology 24. *Elective for Juniors. First semester.*

49. INVERTEBRATE PALEONTOLOGY. Professor BAIN. 4 credit hrs.

The identification, relationships, occurrence, and use of fossil invertebrate animals and plants. Three hours classroom and four hours laboratory work per week. Requisite: Geology 22. *Elective for Juniors. First semester.*

55. VERTEBRATE PALEONTOLOGY. Professor WOOD. 4 credit hrs.

The evolution of vertebrates as shown by the study of fossils, and the relationship of environment to evolution. Three hours classroom and four hours laboratory work per week. (Some course as Biology 55.) Requisite: Geology 22. *Elective for Juniors. First semester.*

79, 80. CONFERENCE COURSE. The Staff.

4 to 6 credit hrs.

Special investigation of one or more topics in mineral deposits, structural geology, sedimentology, paleontology and major geologic problems. Two or more hours conference per week and laboratory work as required. Requisite: The background courses in the Department. *Elective for Seniors.*

German

Professors PEPPARD and SCENNA *; Assistant Professor White;
Mr. HARRISON; Assistant: Mrs. BREUSCH.

Note: The following courses may be used to satisfy the Humanities requirement in sophomore year: German 7 21, 22, 23, 24, 32, 33, 35, 36.

Major for students not candidates for the degree with honors. The major must include thirty credit hours, not counting those of courses 1 and 3. Eight of these credits may be in approved courses outside the Department.

A major in German will take a written examination in May of his senior year. A reading list will be suggested to aid in the preparation for this examination.

The examination will be based on the following:

1) major works of Lessing, Goethe, and Schiller;

* *Absent on leave 1963-64.*

- 2) representative works by authors of the 19th century;
- 3) works by an author of the candidate's choice.

A major must also demonstrate his ability to write correct German.

Honors: The aim of honors work in German is to offer the candidate the opportunity

- a) to explore a chosen field or fields through a more extensive program of readings than is possible in course work;
- b) to organize material for himself along historical or analytical lines, usually in the form of a thesis or essay;
- c) to acquire a general view of the history and development of German, either as language or literature.

The goal of this work is not necessarily to produce graduate students, unless a candidate has definitely decided upon doing graduate work. The program of the senior year is organized on the basis of individual conferences, in which the candidate benefits from personal attention.

Each candidate will present a thesis or essay on an approved topic. It may deal critically with the work of a specific author; it may treat the development of an idea in historical form; it may be a study of some particular literary form.

Each candidate will take, early in May, a written general examination on the history of German literature, which will also include questions in his chosen field. The result of this examination together with the excellence of the thesis or essay will determine the degree of honors for which the Department will recommend the candidate.

Candidates for the degree with honors should elect German 21, 22, 23, 24, 28, 44, 79, 80. They are urged to study one ancient or other modern foreign language.

1. ELEMENTARY COURSE.

4 credit hrs.

Professor PEPPARD and assistant.

Grammar, pronunciation, oral practice. Three hours per week for explanation and demonstration, and three hours per week in small sections for oral practice. *Elective for Freshmen. First semester.*

3. INTERMEDIATE COURSE.

4 credit hrs.

Professor WHITE and assistant.

Review of grammar and pronunciation, oral practice. Reading and analysis of selected texts. Three hours per week for explanation and demonstration, and three hours per week in small sections for drill in aural comprehension of the language. Assignment to this course will be made on the basis of the score in the CEEB Achievement Test. *Elective for Freshmen. First semester.*

3S. INTERMEDIATE COURSE.

4 credit hrs.

Professor PEPPARD and assistant.

Same description as above. Requisite: German I, or its equivalent. *Elective for Freshmen. Second semester.*

5. ADVANCED COURSE.

4 credit hrs.

Mr. HARRISON and assistant.

Reading and analysis of selected texts. Three hours per week for demonstration and explanation, and three hours per week in small sections for oral practice and discussion. Stress will be placed on the acquisition of aural comprehension of the language and oral drill. Conducted in German. Requisite: A satisfactory score in the CEEB Achievement Test, or German 3, or the equivalent. *Elective for Freshmen. First semester.*

Note: Freshmen will be assigned to German 1, German 3, or German 5 on the basis of the score in the CEEB Achievement Test and previous training. Part of the drill in these courses will be in the language laboratory.

5S. ADVANCED COURSE.

4 credit hrs.

Mr. HARRISON and assistant.

Same description as above. Requisite: German 3 or its equivalent. *Elective for Freshmen. Second semester.*

7. INTRODUCTION TO GERMAN LITERATURE.

4 credit hrs.

Professor PEPPARD.

Reading and discussion of selected literary texts. This course will be conducted in German. Requisite: satisfaction of the language requirement. Four hours of classroom work per week. *Elective for Freshmen. First semester.*

7S. INTRODUCTION TO GERMAN LITERATURE.

4 credit hrs.

Professor WHITE.

Same description as above. Requisite: satisfaction of the language requirement, including satisfaction of the requirement at the end of the first semester. *Elective for Freshmen. Second semester.*

The development of German literature from the Age of Goethe to the turn of the century. Selected readings, lectures, and discussion. Requisite: German 7. Three hours per week. *Elective for Freshmen. Second semester.*

23. FAUST. Professor PEPPARD.

3 credit hrs.

Faust, Part I. Study of the Faust legend and assigned readings. Requisite: German 7. Three hours per week. *Elective for Freshmen. First semester.*

24. FAUST. 3 credit hrs.
Faust, Part II. Lectures and assigned readings. Requisite: German 23. Three hours per week. Offered in alternate years. *Elective for Sophomores. Second semester. (Omitted 1963-64.)*

25, 26. READING COURSE. Mr. HARRISON. 3 credit hrs.
A year course open to those who have already satisfied their language requirement in another language and who desire a reading knowledge of German. Offered in alternate years. Three hours per week. *Elective for Sophomores. First and second semesters.*

28. ADVANCED COMPOSITION AND CONVERSATION.
Mr. HARRISON. 4 credit hrs.
Practice in free composition in German. Exercises in pronunciation and idiomatic conversation, with supplementary practice in the language laboratory. Oral reports on selected topics. Conducted in German. Offered in alternate years. Four hours per week. Requisite: consent of the instructor. *Elective for Sophomores. Second semester.*

32. THOMAS MANN. 2 credit hrs.
Readings in the shorter works of Thomas Mann. Lectures and discussion. Offered every third semester. Requisite: German 21, or 22, or 23, or consent of the instructor. Two hours per week. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

32S. THOMAS MANN. 2 credit hrs.
Same description as above. *Elective for Juniors. First semester. (Omitted 1963-64.)*

33. FRANZ KAFKA. 2 credit hrs.
A study of Kafka's shorter works. Lectures and discussion. Offered every third semester. Requisite: German 21, or 22, or 23, or consent of the instructor. Two hours per week. *Elective for Juniors. First semester. (Omitted 1963-64.)*

33S. FRANZ KAFKA. Professor WHITE. 2 credit hrs.
Same description as above. *Elective for Juniors. Second semester.*

35. GERMAN POETRY OF THE TWENTIETH CENTURY.
Professor WHITE. 2 credit hrs.

Interpretation of German verse of the period, with emphasis on George, Rilke, Hofmannsthal, and the Expressionists. Offered every third semester. Requisite: German 21, or 22, or 23, or consent of the instructor. Two hours per week. *Elective for Juniors. First semester.*

35S. GERMAN POETRY OF THE TWENTIETH CENTURY. 2 credit hrs.
Same description as above. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

36. MODERN GERMAN LITERATURE IN TRANSLATION.

3 credit hrs.

Selected German novels, novellas, and plays, from Goethe to the present, to be read in English translation. Works by such authors as Goethe, Kleist, Mann, Hesse, and Brecht. Three hours per week. Offered in alternate years. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

44. SPECIAL TOPICS IN GERMAN LITERATURE. 2-4 credit hrs.

Individual work with one member of the department on an approved subject. The program and the amount of credit in each case will be arranged in advance in consultation with the Department. Requisite: The approval of the Department. *Elective for Juniors. Second semester.*

79-80. HONORS COURSE FOR SENIORS.

6 credit hrs.

The Department.

History

Professors COMMAGER, HAVIGHURST, and ROZWENC; Associate Professors GREENE and HALSTED*; Assistant Professors CHEYETTE, COHEN, CZAP, HALE, HAWKINS, and PETROPULOS; Messrs. BRAZILL, GAGLIARDO, and RATTÉ.

Note: A major in history will consist of eight semester courses in addition to the required sequence courses (History 1-2 and American Studies 21-22) of the freshman and sophomore years. One of the eight semester courses must be History 69 or 69s.

Comprehensive examination: All students majoring in history will take six hours of written examination in the spring of senior year. This examination will test the student's historical knowledge and understanding within the limits of a program of study approved by the department. But the student is responsible for the design of his own course of study subject to the general requirements which follow.

Each student will be examined on a primary field and a secondary field. For his primary field the student will designate one of the following: (1) Western Europe, (2) United States, (3) Latin America, (4) The Middle East, (5) Eastern Europe, (6) East Asia. The student's secondary field is to be chosen from an area outside the primary field. Each student is required to elect one semester course in his secondary field. The secondary field is to be selected from among the following: (1) Medieval Europe, 400-1300, (2) Early Modern Europe, 1300-1789, (3) Modern Europe, 1789 to the Present, (4) United States, (5) Latin America, (6) The Middle East, (7) Eastern Europe, (8) East Asia to 1644, (9) East Asia, 1644 to the Present.

Adequate preparation for examination on the primary field will require work beyond the general introductory course in the area selected by the

* *Absent on leave first semester.*

student. Reading lists will be available to students to supplement their work in introductory and advanced courses. In the three secondary fields in European history students will be expected to be prepared considerably beyond the level of History 1-2. In other secondary fields preparation must at least match the level of the general introductory course. Reading lists will be available to assist students in preparing their secondary fields.

Students interested in ancient history should consult both the History Department and the Classics Department in working out course programs.

Honors Program: All candidates for honors must elect History 69 or 69s, 79, and 80. These three courses form an integrated enterprise. The object is to offer the student an opportunity to arrive at some understanding of what "history" is and how the historian works: first, by the study of the writings of historians themselves and of a variety of problems which historians have faced, and second, by individual and original work through the application of historical principles. Thus, the nature and method of history will be studied in the statements of certain well-known historians as to what they conceive themselves to have been doing, and then through the examination of how various historians have used evidence, employed analytic concepts, and synthesized materials in selected areas of historical experience. Hence, students will have an opportunity to assess a variety of approaches to history as well as the usefulness to history of concepts taken from adjacent disciplines. By stressing the importance of selecting a thesis topic in the spring of the junior year, encouragement will be given to a fuller utilization of the summer following for research or for further preparatory work in a relevant language. In the senior year, the history honors student will give a very considerable part of his time to the preparation of a thesis.

1. THE DEVELOPMENT OF WESTERN CIVILIZATION AND AN INTRODUCTION TO SOCIAL SCIENCE. 4 credit hrs.

Professors CHEYETTE, COHEN, CZAP, HALE, HAVIGHURST, and PETROPULOS; Messrs. BRAZILL, GAGLIARDO, and RATTÉ.

An introduction to the history of Europe, with particular emphasis on the development of its social order, economic and political institutions, social theory and historical thought; the course also examines the encounter of Europeans with the civilizations of Islam and the Far East. Two lectures, two section meetings per week. *Required for Freshmen. First semester.*

2. THE DEVELOPMENT OF WESTERN CIVILIZATION AND AN INTRODUCTION TO SOCIAL SCIENCE. 4 credit hrs.

Professors CHEYETTE, COHEN, CZAP, HALE, HALSTED, HAVIGHURST, and PETROPULOS; Messrs. BRAZILL, GAGLIARDO, and RATTÉ.

Continuation of History 1. Two lectures, two section meetings per week. *Required for Freshmen. Second semester.*

21. COLONIAL LATIN AMERICA. Professor HALE. 4 credit hrs.
Selected topics illustrating the structure of government and society in Spanish and Portuguese America from the sixteenth century through the Revolutions for Independence. *Elective for Sophomores. First semester.*

22. MODERN LATIN AMERICA. Professor HALE. 4 credit hrs.
Selected topics illustrating social and political changes, and the relationship between ideas and institutions in nineteenth and twentieth century Latin America. *Elective for Sophomores. Second semester.*

25S. TOPICS IN THE HISTORY OF MEDIEVAL EUROPE.
Professor HAVIGHURST. 4 credit hrs.

A course based on the intensive study of three or four aspects of medieval society, institutions and thought. Topics will be chosen to illustrate: (1) sources and forms of historical evidence; (2) the use and interpretation of such evidence in historical writing. Emphasis will be placed on the varied ways in which the age reveals itself to historians. Individual projects and class discussion. *Elective for Sophomores. Second semester.*

27. EAST ASIA: CHINA AND JAPAN. Professor COHEN. 4 credit hrs.
An introduction to the history of China and Japan from earliest times to the period of the Western impact. Special attention will be given to the development of political, social, religious, and intellectual institutions and traditions in both countries. *Elective for Sophomores. First semester.*

28. EAST ASIA: CHINA AND JAPAN. Professor COHEN. 4 credit hrs.
 An introduction to the history of China and Japan after the coming of the West. Special emphasis will be placed on the internal political, economic, and intellectual changes brought about by the impact of Western civilization. Consideration will be given to developments in both countries since World War II. *Elective for Sophomores. Second semester.*

33. THE HISTORY OF AMERICAN SOCIETY. 4 credit hrs.
Professor ROZWENC.

The changing relations in American social thought and behavior in the generations from the American Revolution to the end of the Civil War. Emphasis is given to basic political, economic and social institutions, to the place of science and technology in American society, and to competing ideas and social myths. *Elective for Sophomores. First semester. (To be given every year.)*

34. THE HISTORY OF AMERICAN SOCIETY. 4 credit hrs.
Professor ROZWENC.

 The changing relations in American social thought and behavior in the generations from the Gilded Age to the present. Emphasis is given to basic political, economic and social institutions, to the place of science and technology in American society, and to competing ideas and social myths. *Elective for Sophomores. Second semester. (To be given every year.)*

36. THE HISTORY OF AMERICAN EDUCATION. 4 credit hrs.

Professor HAWKINS.

Selected topics with emphasis on the nineteenth century, higher education and European influences. Students will pursue individual case studies in areas chosen for analysis. Limited to twenty-five students. *Elective for Sophomores. Second semester.*

39. THE MIDDLE EAST. Professor PETROPULOS. 4 credit hrs.

From the birth of Islam and the rise of an Arab empire in the seventh century A.D. to the passing of political hegemony to the Turks and the growth of the Ottoman empire up to 1500. Topics receiving special emphasis: the transformation of popular-religious movements into dynastic drives for *imperium*, the contribution of pre-Islamic cultural traditions to the formation of an Islamic civilization, and the interaction between Islam, Byzantium, and the West. *Elective for Sophomores. First semester.*

40. THE MIDDLE EAST. Professor PETROPULOS. 4 credit hrs.

From the rise of the Ottoman (Turkish) and Safavid (Persian) empires to the emergence of successor nation-states in the twentieth century. Topics receiving special emphasis: the impact of the West on Islamic civilization, the modern problems of under-development faced by the new nations of the Middle East, the interaction between the Arab, Turkish, Iranian, and Jewish portions of the Middle Eastern world. *Elective for Sophomores. Second semester.*

41. RUSSIA. Professor CZAP. 4 credit hrs.

The history of Imperial Russia until 1894. The course will include a brief discussion of Russia's Kievan and Muscovite background and will emphasize the development of political institutions, the growth and collapse of serfdom, the village commune, the agrarian problem and the impact of industrialization in the post-Emancipation period, and the growth of revolutionary thought and action. *Elective for Juniors. First semester.*

42. RUSSIA. Professor CZAP. 4 credit hrs.

The history of Russia and the Soviet Union in the 20th century. The course will include a discussion of the constitutional monarchy, the 1917 revolutions and establishment of the Soviet regime, and will survey the development of agriculture and industry and the evolution of the Communist party through the post-war years. *Elective for Juniors. Second semester.*

43. EUROPE IN THE NINETEENTH CENTURY. 4 credit hrs.

Mr. BRAZILL.

The history of Central Europe from 1806 to 1918. The course will emphasize "the Germanies", the place of Germany in Western Civilization, and the role of the German-speaking peoples as a cultural bridge between Eastern and Western Europe. Special consideration will be given to intellectual, diplomatic, and constitutional history. *Elective for Juniors. First semester.*

44. EUROPE IN THE NINETEENTH CENTURY. 4 credit hrs.
Professor HALSTED.

Ideas and social change in Europe from the French Revolution to the era of Imperialism. In 1964, illustrative topics will be selected from British, French, and Italian history. *Elective for Juniors. Second semester.*

48. AGE OF THE ENLIGHTENMENT. Mr. GAGLIARDO. 4 credit hrs.

A survey of European society in the last decades of the 17th and 18th centuries, with concentration on England, France, and Germany. Topical emphases will include study of the structural and functional characteristics of the Ancien Regime, foreign relations and diplomacy, Enlightened Absolutism, and the intellectual revolution. *Elective for Juniors. Second semester.*

49. EUROPE IN THE TWENTIETH CENTURY. 4 credit hrs.
Elective for Juniors. First semester. (Omitted 1963-64.)

50. EUROPE IN THE TWENTIETH CENTURY. 4 credit hrs.
Mr. RATTÉ.

The development of contemporary European society studied through the materials of intellectual, political, and social history. Problems to be considered will include: progress, positivism, and modern social theories; the national and international impact of World War I; the economic and social crisis of the inter-war years; diplomacy, democracy, and World War II; the movement toward European unity. Attention will be given to modern European art, literature, and philosophy. *Elective for Juniors. Second semester.*

51. ENGLISH HISTORY: TUDORS AND STUARTS. 3 credit hrs.
Professor HAVIGHURST.

An examination of English society and institutions from 1485 to 1714: the English break with Rome and the Elizabethan Settlement in religion; the Elizabethan Age; development of Puritan thought; constitutional conflicts of the 17th century, with some attention to their social and economic implications. *Elective for Juniors. First semester. (Omitted 1963-64.)*

52. BRITAIN SINCE 1815. 4 credit hrs.

A study of some of the fundamental changes in English society and institutions from 1815 to the present. Where possible contemporary materials will be the basis of study. Topics to be examined: "Victorian Compromise"; British policy in Europe; social thought and social change, 1870-1914; changing concept of Empire; Socialist Britain. Lectures, discussion and individual projects. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

57. THE SOUTH SINCE THE CIVIL WAR. 4 credit hrs.
Professor HAWKINS.

An examination of the South as a culture, with stress on the forces that have affected its particularism. Reconstruction; Redemption and the

New South; Populist Revolt; Disfranchisement and the Atlanta Compromise; topical investigations of the political, economic, social, and intellectual life of the South in the present century. The last fifth of the course will be devoted to the South since 1940, emphasizing New Reconstruction. *Limited to 25 students. Elective for Juniors. First semester.*

59. SOCIETY AND POLITICS IN DE TOCQUEVILLE'S

AMERICA. Professor ROZWENC.

4 credit hrs.

An intensive examination of the influence of social and economic changes upon politics in America in the second quarter of the nineteenth century. Special attention will be given to political ideas not only of politicians but of journalists and literary figures as well. A few key problems will be analyzed by means of a comparative examination of England and France in the same period. *Elective for Juniors. Limited to twenty-five students. First semester. (Omitted 1963-64.)*

60. SOCIETY AND POLITICS IN THE ERA OF THE NEW

DEAL. Professor ROZWENC.

4 credit hrs.

An intensive examination of the influence of social and economic changes on politics and political thought. Special attention will be given to selected writings including works on politics and social problems, imaginative literature, and major works of historical interpretation. *Elective for Juniors. Limited to fifteen students. Second semester.*

61. FOUNDATIONS OF AMERICAN CIVILIZATION. 4 credit hrs.

Professor GREENE.

An analysis of the first five generations of Americans (from early settlers through the Revolutionary generation) with emphasis upon the origins of certain fundamental themes in American history: social classes, immigration, European-American relations, frontier vs. city, science vs. religion, and constitutional democracy. *Elective for Juniors. First semester.*

62. AMERICAN DIPLOMATIC HISTORY.

3 credit hrs.

Professor GREENE.

The history of American foreign policy from the American Revolution to the present, with emphasis on the period since 1898. *Elective for Juniors. Second semester.*

63. EARLY MODERN EUROPE. Professor CHEYETTE. 4 credit hrs.

European culture and social institutions, c. 1300 to c. 1600. Students will pursue individual studies on topics selected for class discussion (e.g. feudalism, representative institutions, humanism, protestantism, etc.). *Elective for Juniors. First semester.*

64. EARLY MODERN EUROPE. Professor CHEYETTE. 4 credit hrs.

A continuation of History 63. *Elective for Juniors. Second semester.*

65. MODERN JAPAN. 4 credit hrs.

An examination of selected topics in modern Japanese history, 1840-1960. Topics will vary yearly but will be designed to explore the basic

problem of political change and cultural development. Possible topics include: the role of "traditional" values in politics and literature; two styles of revolutionary change — the Meiji and MacArthur eras; and the dual challenge of marxism — a philosophy and a revolutionary movement. *Admission by permission of instructor. First semester. Limited to 15 students. (Omitted in 1963-64.)*

67. FOUNDATIONS OF ENGLISH LAW AND THE

CONSTITUTION. Professor HAVIGHURST.

4 credit hrs.

Origins of the English Constitution; growth of Common Law; evolution of Parliament; development of monarchy; constitutional conflicts. Lectures, seminar discussion and individual projects. *Elective for Juniors. First semester, alternate years.*

68. THE PROGRESSIVE GENERATION.

4 credit hrs.

Professor GREENE.

A study of the responses to change made by Americans in the generation from 1890 to 1920. By concentrating upon a single generation the course will explore some of the interrelations among politics, literature, business, the professions, religion, and popular culture. *Elective for Juniors. Limited to fifteen students. Second semester. (Omitted 1963-64.)*

69. TOPICS IN HISTORICAL MEANING AND METHOD.

The Department.

4 credit hrs.

An introduction to the problems of understanding and explanation in history, and to the techniques and methods employed by historians. History 69 or History 69s required of all history majors. *Elective for Juniors. First semester.*

69S. TOPICS IN HISTORICAL MEANING AND METHOD.

The Department.

4 credit hrs.

The same course as History 69. *Elective for Juniors. Second semester.*

73. CONFERENCE COURSE IN AMERICAN INTELLECTUAL

HISTORY. Professor COMMAGER.

4 credit hrs.

This course will consist of reading, discussion and reports on some of the significant books of American intellectual history: Emerson's *English Traits*; *The Federalist Papers*; Rolvaag's *Giants in the Earth*; Robinson, *Collected Poems*; selections from the writings of Lester Ward, William James, Thorstein Veblen, Justice Holmes, Frank Lloyd Wright, and others. *Limited to 15 students in each section. Three sections. Sec. A will emphasize the interests of students of American studies, history, and literature. Sec. B. will emphasize the interests of students of the sciences. Sec. C will emphasize the interests of students of politics, law and economics. Elective for Juniors. Admission by permission of instructor only. First semester.*

74. CONFERENCE COURSE IN AMERICAN INTELLECTUAL

HISTORY. Professor COMMAGER.

4 credit hrs.

Continuation of History 73. *Elective for Juniors. Admission by permission of instructor only. Second semester.*

79. CONFERENCE COURSE. SENIOR HONORS. *4 credit hrs.*
 The Department.
 Preparation of an honors thesis. *Elective for seniors with the consent of the Department. First semester.*
80. CONFERENCE COURSE. SENIOR HONORS. *6 credit hrs.*
 The Department.
 Preparation of an honors thesis. *Elective for seniors with the consent of the Department. Second semester.*
91. SPECIAL TOPICS (Independent Reading Course) *1 to 4 credit hrs.*
First semester.
92. SPECIAL TOPICS (Independent Reading Course) *1 to 4 credit hrs.*
Second semester.

Humanities

1. HUMANITIES. *2 credit hrs.*
 Professors CANNON, FRENCH, HUMPHRIES, KENNICK, MOORE (chairman), TREDWELL, WALDAUER, and WHITE; Messrs. ARCHAMBAULT, BRAZILL, GAGLIARDO, RATTÉ and RADLEY.
 A reading course: fairly rapid reading for understanding and enjoyment. The course is intended to serve as a contribution to the student's general education, and the books are chosen to illustrate certain important stages in the development of Western culture. The reading list varies somewhat from year to year, but in general this semester is given over largely to Greek literature. The course is conducted in small sections: class discussions, short papers, occasional lectures. Two hours per week. *Required for Freshmen. First semester.*
2. HUMANITIES. *2 credit hrs.*
 Professors CANNON, FRENCH, HUMPHRIES, MOORE (chairman), TREDWELL, WALDAUER, and WHITE; Messrs. ARCHAMBAULT, BRAZILL, DESPLAND, RATTÉ and RADLEY.
 A continuation of Humanities 1. The reading list for this semester includes, in general, readings from the Bible and works selected from the medieval, Renaissance and modern periods. Three hours per week. *Requisite: Humanities 1. Required for Freshmen. Second semester.*

Italian

Professor FRENCH

1. ELEMENTARY COURSE. Professor FRENCH. *4 credit hrs.*
 Recognition and imitation of basic sentence patterns, vocabulary and verb forms. Extensive drill on pronunciation in class and laboratory; graded reading from beginning of course with oral-aural drill on same.

Six hours classwork practice and laboratory per week. *Elective for Freshmen. First semester.*

3S. INTERMEDIATE COURSE. Professor FRENCH. 4 credit hrs.

Continued oral-aural practice. Reading and analysis of original texts, such as Wilkins and Altrocchi, *Italian Short Stories*; Pirandello, *Atti unici* (3 plays); Pavese, *Paesi tuoi*. Five hours per week. *Elective for Freshmen. Second semester.*

21. READINGS IN ITALIAN LITERATURE FROM BOCCACCIO TO THE PRESENT. Professor FRENCH. 4 credit hrs.

Reading of important works with special attention to the modern period. Requisite: Italian 3. Four hours of classroom work per week. *Elective for Sophomores. First semester. (Omitted 1963-64.)*

22. DANTE. Professor FRENCH. 4 credit hrs.

A reading of the *Inferno* and of parts of the *Purgatorio* and *Paradiso*. Special study of the social and political background of the work. Requisite: Italian 21. Special reports and papers. Given in alternate years. Three hours of classroom work per week. *Elective for Sophomores. Second semester. Limited to twenty-five students.*

24. THE RENAISSANCE. Professor FRENCH. 4 credit hrs.

Origins in Boccaccio's *Decamerone* and in Petrarch's *Canzoniere*. Reading of Cellini's *Vita*, Castiglione's *Cortegiano* and Machiavelli's *Principe* with a study of the social background of the fifteenth and sixteenth centuries. Special reports and papers. Requisite: Italian 21. Three hours of classroom work per week. *Elective for Sophomores. Second semester. Limited to twenty-five students. (Omitted 1963-64.)*

91. SPECIAL TOPICS. *First semester.* 1-4 credit hrs.

92. SPECIAL TOPICS. *Second semester.* 1-4 credit hrs.

Legal Studies

Professors HAVIGHURST, LATHAM and ZIEGLER.

25. AMERICAN CONSTITUTIONAL DEVELOPMENT. 4 credit hrs.
Professor LATHAM.

The development of American constitutional philosophy since 1787 under three general heads: the Agrarian Constitution, the Laissez-Faire Constitution, and the Welfare Constitution. Topics will include the Marshall and Taney eras, constitutional problems of slavery, the Civil War and Reconstruction, the constitutional foundations of 19th century capitalism, constitutional problems of federal and state regulation, civil liberties in the 20th century, the constitutional crisis of 1935-1937, and current

problems of constitutional interpretation. Attention will be given to the judicial philosophies of the Federalist and Jacksonian judges, Field, Miller, Waite, Harlan, Holmes, Brandeis, Hughes, Stone, Black, and Frankfurter. Four hours of classroom work per week. (Same course as Political Science 25.) *Elective for Sophomores. First semester.*

42. ADMINISTRATIVE LAW. Professor ZIEGLER. 4 credit hrs.

An introduction to the American system of legal control exercised by other law administering agencies than the courts, with special reference to doctrines developed by the Interstate Commerce Commission, Securities and Exchange Commission, Federal Trade Commission, and the National Labor Relations Board. The course deals with the formulation of legislative purposes and administrative policies; administrative and judicial responsibility for the enforcement of agency programs; and the nature and extent of judicial control over administrative action. (Same course as Political Science 42.) Three hours of classroom work per week. *Elective for Juniors. Second semester. Limited to twenty-five students.*

44. INTERNATIONAL LAW. Professor ZIEGLER. 4 credit hrs.

The historical basis and present trends in the development of international law will be discussed and related to the social, economic, and political aspects of present day world politics and government. (Same course as Political Science 44.) Four hours of classroom work per week. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

67. FOUNDATIONS OF ENGLISH LAW AND THE

CONSTITUTION. Professor HAVIGHURST.

4 credit hrs.

Origins of the English Constitution; growth of Common Law; evolution of Parliament; development of Monarchy; constitutional conflicts. (Same course as History 67.) *Elective for Juniors. First semester, alternate years.*

Mathematics

Professors BREUSCH, BROWN, and SPRAGUE; Associate Professor WILLCOX*; Assistant Professor BAILEY; Visiting Instructors NAYLOR and SEMBER.

Note: A major in mathematics must elect 3, 23S, 25, 31, 32. The comprehensive examination in the spring of senior year will be limited to these courses. All mathematics courses except 1-2 give major credit.

In addition to the general College requirements, a degree with honors is awarded on the basis of accomplishment in the courses in mathematics required for a major, in the conference course, and in any additional courses prescribed by the Department. A thesis may be required.

The content of the conference course varies from year to year. Topics that have been or may well be given are Complex Variable, Abstract Algebra, Algebraic Geometry, Differential Geometry, Topology and Analysis.

* Absent on leave 1963-64.

1. Same course as Science 1. 4 credit hrs.
2. Same course as Science 2. 4 credit hrs.
3. CALCULUS. Professors SPRAGUE and BAILEY. 4 credit hrs.

Continuous functions, differentiation and integration of trigonometric and logarithmic functions and their inverses, curvature, curvilinear motion, curve tracing, theorem of mean value, formal integration, infinite series, simple partial differentiation. Requisite: Science 1 or its equivalent. Four hours of classroom work per week. *Elective for Sophomores. First semester.*

- 3S. CALCULUS. Mr. NAYLOR. 4 credit hrs.
Same description as above. *Elective for Freshmen. Second semester.*

- 3X. CALCULUS. Professor BROWN 4 credit hrs.
Same course as Mathematics 3. Two hours of classroom work per week throughout the year. *Elective only for freshmen who are excused from Mathematics 1-2 and who wish to continue the study of mathematics without interruption. First and Second Semesters.*

- 23S. DIFFERENTIAL EQUATIONS. Mr. SEMBER. 3 credit hrs.
Treatment of ordinary differential equations with principal types of first and second order equations, linear equations with constant coefficients, simultaneous equations. Simple partial differential equations. Applications to geometry, physics and other branches of science. Requisite: Mathematics 3. Three hours of classroom work per week. *Elective for Sophomores. Second semester.*

25. ABSTRACT ALGEBRA. Professor BROWN. 3 credit hrs.
A development of the characteristic properties of the integers and the rational, real and complex number systems as instances of properties of rings, integral domains and fields, followed by a selection from the following topics: groups, polynomial rings, matrix rings. Three hours of classroom work per week. *Elective for Sophomores. First semester.*

31. ADVANCED CALCULUS. Professor BREUSCH. 4 credit hrs.
Brief treatment of determinants and solid analytic geometry, partial differentiation, implicit function theory, elements of vector analysis with applications. Requisite: Mathematics 3. Four hours of classroom work per week. *Elective for Juniors. First semester.*

32. ADVANCED CALCULUS. Professor BREUSCH. 4 credit hrs.
Multiple integrals, line and surface integrals, transformation of integrals, uniform convergence, Fourier series. Requisite: Mathematics 31. Four hours of classroom work per week. *Elective for Juniors. Second semester.*

- 33S. LINEAR ALGEBRA. Professor BROWN. 3 credit hrs.
Vector spaces; matrices and linear transformations on a vector space; determinants and their role in linear algebra; diagonalization and canonical

forms of matrices; some applications to other branches of science. Three hours of classroom work per week. *Elective for Sophomores. Second semester.*

34. PROBABILITY AND STATISTICS. Professor BAILEY. 3 credit hrs.

Elementary probability. Random variables with discrete and continuous distribution functions. Joint distribution functions. Distribution functions of frequent occurrence in statistics, such as Poisson, normal in one and two variables, Chi square and Student's t. Requisite: Mathematics 3. Three hours of classroom work per week. *Elective for Sophomores. Second semester, alternate years.*

42. FUNCTIONS OF A COMPLEX VARIABLE. 3 credit hrs.

An introduction to analytic functions. Point sets, complex numbers, derivatives, conformal mapping, integrals. Cauchy's theorems, power series, singularities, Laurent series, analytic continuation, rational, entire, meromorphic and multiple-valued functions. Riemann surfaces. Requisite: Mathematics 31. Three hours of classroom work per week. *Elective for Juniors. Second semester, alternate years. (Omitted 1963-64.)*

43. THEORY OF NUMBERS. Professor BREUSCH. 3 credit hrs.

An introduction to the theory of rational integers. Divisibility, prime numbers, the unique factorization theorem, congruences, quadratic residues, Fermat's theorem, Diophantine equations. Three hours of classroom work per week. *Elective for Juniors. First semester, alternate years.*

45. POINT-SET TOPOLOGY. 3 credit hrs.

A brief treatment of elementary set theory and the real number system will be given to motivate the definition of a topological space, after which topics will be selected from the following: topological spaces, metric spaces, compactness, connectedness, embedding theorems, metrization theorems, compactification, topological characterizations of arcs and curves. Requisite: Mathematics 25 or 32. Three hours of classroom work per week. *Elective for Juniors. First semester, alternate years. (Omitted 1963-64.)*

48. DIFFERENTIAL GEOMETRY. Professor SPRAGUE. 3 credit hrs.

An introduction to the differential geometry of curves and surfaces; curvature, torsion, Frenet formulae; curvilinear coordinates, first and second fundamental form, surface curvature, lines of curvature, geodesics, fundamental equations. Requisite: Mathematics 31. Three hours of classroom work per week. *Elective for Juniors. Second semester, alternate years.*

79. CONFERENCE COURSE. The Department. 4 credit hrs.
Elective for Seniors. First semester.

80. CONFERENCE COURSE. The Department. 6 credit hrs.
Elective for Seniors. Second semester.

Music

Professors MISHKIN and V. MORGAN; Mr. ARCHIBALD.

The music major consists of the following basic courses: Music 23-24, Music 25, Music 41-42. Advanced work may be in theory, literature, or applied music. Majors in theory and music literature must also elect Music 47-48; majors in applied music must complete at least two years of Music 29-30. Part of the advanced work in applied music will be done with members of the music departments of Smith and Mt. Holyoke.

All music majors must take comprehensive examinations in music theory and literature in the final semester of their senior year.

Honors candidates will arrange individual programs with the Department during the second semester of their junior year. Compositions, essays, or recitals will be required according to the field of concentration. All honors candidates must elect Music 79-80.

Music 25 or Music 27 and any other course except 23-24, 29-30, 47-48, and 71-72 may be used in satisfaction of the sophomore humanities requirement.

23. ELEMENTARY THEORY. Professor MISHKIN. 4 credit hrs.

Basic principles of harmonic and contrapuntal technique. Writing in two, three, and four voices; triads and their inversions; non-harmonic tones; modulations. Limited to fifteen students. Requisite: ability to play all written work and the consent of the Department. *Elective for Sophomores. First semester.*

24. ELEMENTARY THEORY. Professor MISHKIN. 4 credit hrs.

A continuation of Music 23. Seventh chords; enharmonic and chromatic modulations; harmonizations in chorale style; elementary phrase structure. Requisite: Music 23. *Elective for Sophomores. Second semester.*

25. AN INTRODUCTION TO MUSICAL LITERATURE.

Professor V. MORGAN.

3 credit hrs.

Western music from Gregorian chant to the present time with emphasis on music since 1500. No previous study of music is required. *Elective for Sophomores. First semester.*

25S. AN INTRODUCTION TO MUSICAL LITERATURE.

Professor V. MORGAN.

3 credit hrs.

Same course as Music 25. *Elective for Sophomores. Second semester.*

27S. THE LANGUAGE OF MUSIC.

3 credit hrs.

Professor MISHKIN and Mr. ARCHIBALD.

A creative study of the elements of music based upon a critical analysis of the composer's method. No previous study of music is required. *Elective for Sophomores. Second semester.*

29. APPLIED MUSIC.

2-3 credit hrs.

Under the co-operative plan courses are offered in the following branches of applied music: piano, organ, voice, violin, viola, violoncello. These courses may be elected by students who first satisfy the Department at an audition and then the individual instructor that they are prepared to undertake the study of solo music literature of artistic worth. Students will normally be expected to begin their college work in applied music as sophomores and to continue the study for two years. During the first two years of study three credit hours will be granted for each semester: two for the lesson and practice, and one for the co-requirement listed as (c) below. Under exceptional circumstances a student may, with permission of the Dean, elect a third year for which there will be two credit hours per semester. No credit is granted for a single semester of applied music.

Students of keyboard and string instruments have one hour of private instruction per week and are required (a) to practice a minimum of nine hours per week, and (b) to elect in sophomore or junior year one other course offered by the Department. In addition keyboard students are required (c) to participate in a weekly session of ensemble playing, and string students to attend the weekly rehearsal of the Smith-Amherst Orchestra.

Students of voice have one hour of private instruction per week and are required (a) to practice a minimum of eight hours per week, (b) to elect in sophomore or junior year one other course offered by the Department, and (c) to sing with the Glee Club.

Private instruction will be given by members of the Departments of Music of Smith College and Mt. Holyoke College. The courses are listed in the catalogues of our sister institutions as: Smith College — Piano 121, 122, 323, 324; Organ 232, 333, 434; Violin 151, 252, 353, 454; Viola 161, 262, 363, 464; Violoncello 171, 272, 373, 474; and Mount Holyoke College — Voice 167f, 168s. A fee of \$75 per semester will be charged to cover this special type of instruction. *Elective for Sophomores and qualified Freshmen with the consent of both the Department and the instructor. First semester.*

30. APPLIED MUSIC.

2-3 credit hrs.

A continuation of Music 29. *Elective for Sophomores and qualified Freshmen with the consent of both the Department and the Instructor. Second semester.*

41. SYMPHONIC MUSIC. Professor V. MORGAN.

3 credit hrs.

The development of orchestral literature from Haydn through Brahms: the symphony, concerto, overture and symphonic poem. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. First semester.*

42. MUSIC SINCE 1900. Mr. ARCHIBALD.

3 credit hrs.

The musical scene in Europe and in the United States during the 20th century. Analyses of works by Schoenberg, Stravinsky, Bartók, Hindemith, Copland and others. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. Second semester.*

44. BEETHOVEN. Professor V. MORGAN. 3 credit hrs.

A study of the piano, chamber and orchestral music. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. Second semester.*

45. BACH. Professor MISHKIN. 3 credit hrs.

The Bach style studied in relation to the development of music from 1600. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. First semester.*

46. THE OPERA. Professor V. MORGAN. 3 credit hrs.

The development of the musical drama with emphasis on a detailed study of operatic types. Representative works by Mozart, Verdi and Wagner. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

47. CHROMATIC HARMONY. Mr. ARCHIBALD. 3 credit hrs.

Elementary composition: two and three part forms; theme and variations; the sonata-allegro. Requisite: Music 24. *Elective for Juniors. First semester.*

48. TONAL COUNTERPOINT. Professor MISHKIN. 3 credit hrs.

Contrapuntal technique of the 18th century, invertible counterpoint, canon, two part inventions. Requisite: Music 24. *Elective for Juniors. Second semester.*

52. MOZART AND THE CLASSICAL STYLE.

Professor MISHKIN.

3 credit hrs.

A study of the classical idiom with special reference to the instrumental and vocal music of W. A. Mozart. Requisite: Music 25 or Music 27 or the consent of the Department. *Elective for Juniors. Second semester. (Omitted 1963-64.)*

71. SEMINAR IN COMPOSITION. Mr. ARCHIBALD. 3 credit hrs.

By means of the creative solution of a series of brief compositional problems the student will gain first-hand knowledge of certain of the styles and techniques of contemporary music. Analysis of pertinent 20th century music. Requisite: Music 47-48. *Elective for Seniors. First semester.*

72. SEMINAR IN COMPOSITION. Mr. ARCHIBALD. 3 credit hrs.

A continuation of Music 71. Projects in composition suited to the needs and capabilities of the individual student. *Elective for Seniors. Second semester.*

79-80. CONFERENCE COURSE. 6 credit hrs.

Advanced work in history, composition or performance. *Elective for Qualified Seniors. First and second semesters.*

Philosophy

Professors EPSTEIN, KENNEDY, and KENNICK; Associate Professor PEMBERTON*; Assistant Professor TREDWELL; Mr. DESPLAND.

Note: The courses open to Sophomores: Introduction to Philosophical Literature, Ethics, Logic, and History of Philosophy (and Science 3S), may count towards a major in Philosophy. All majors in philosophy are required to take Philosophy 43 and 44.

The comprehensive examination in philosophy will deal with the history of philosophy and with selected additional topics in philosophy, including ethics and logic. Further information may be obtained from members of the department.

Candidates for the degree with honors in philosophy are required to take the courses numbered 23, 24, 43, 44, 79, and 80, and will elect their further courses with the approval of the Department. Each candidate will write, in conjunction with the conference courses in the senior year, an original essay on a topic which has been approved by the Department. He will take, early in May of senior year, two written and one oral examinations. One written examination will be on the general history of European and American philosophy. The other written examination will be on some field of philosophy which the candidate may select, with the approval of the Department—metaphysics and philosophy of science, logic and theory of knowledge, ethics and social philosophy, aesthetics, history and philosophy of religion. The oral examination will be a defense by the candidate of his original essay before a committee of members of the Philosophy and affiliated Departments. Recommendation for the various degrees of honors will be made by the Department on the basis of the original essay and the three examinations.

Majors and majors with honors may also be taken in combined fields, e.g. Philosophy and Mathematics, Philosophy and History, etc., with the approval of the Departments concerned. The selection of courses to constitute such combined majors, the topic for an original essay and the arrangements for comprehensive examinations must in each case be approved by representatives of the Departments. Recommendation for the various degrees with honors will be made by committees composed of members of the Departments concerned.

21. INTRODUCTION TO PHILOSOPHICAL LITERATURE.

Professors KENNEDY and TREDWELL.

3 credit hrs.

Training in the reading of philosophical literature. Classical and contemporary authors, chosen to exemplify the different basic types of philosophical thought, will be discussed. This course may be taken to meet part of the sophomore requirement in connection with the Humanities. Three class hours per week. *Elective for Sophomores. First semester.*

* Absent on leave 1963-64.

21S. INTRODUCTION TO PHILOSOPHICAL LITERATURE.

Professors EPSTEIN and KENNICK.

3 credit hrs.

Training in the reading of philosophical literature. Classical and contemporary authors, chosen to exemplify the different basic types of philosophical thought, will be discussed. This course may be taken to meet part of the sophomore requirement in connection with the Humanities. Three class hours per week. *Elective for Sophomores. Second semester.*

23. INTRODUCTORY LOGIC. Professor TREDWELL.

3 credit hrs.

Propositional and functional logic, elementary semantics and set theory, as tools for the deductive investigation of scientific and philosophic theories. Scientific theories lending themselves to formalization within functional logic and set theory will be drawn from arithmetic, geometry and elementary measurement theory. (No previous training in the sciences or philosophy is presupposed.) Three class hours per week. *Elective for Sophomores. First semester.*

24. ETHICS. Professor KENNEDY.

3 credit hrs.

The bases of morality; theory of the moral life; moral issues involved in social problems. This course may be taken to meet part of the sophomore requirement in connection with the Humanities. Three class hours per week. *Elective for Sophomores. Second semester.*

26. INTRODUCTION TO THE PHILOSOPHY OF SCIENCE

Professor EPSTEIN.

3 credit hrs.

An examination of two major aspects of the procedure of the physical and social sciences. (1) *Concept Formation*: interpreted and uninterpreted systems, semantical rules and measurement, definition and reduction, elementary and abstract terms, the reduction of theories. (2) *Explanation, Prediction and Confirmation*: individual events and laws, the logical character of scientific laws, mechanical explanation and its probabilistic, genetic and teleological alternatives, relations and distinctions between explanation and prediction, probability and confirmation, the Paradoxes of Confirmation.

Detailed results will be brought to bear on such representative issues as: Space and Geometry in Physical Theory, Causality and Indeterminism in Physics and History, Mechanism and Vitalism in Biology, Methodological Individualism in Social Science. *Elective for Sophomores. Second semester.* (Omitted in 1963-64. See Science 3S and introductory Note to Philosophy offerings.)

41S. PHILOSOPHY OF EDUCATION.

3 credit hrs.

Professor KENNEDY.

A comparative and critical study of contemporary theories of education, in terms both of their historical origins and of current problems and controversies. Three class hours per week. *Elective for Juniors. Second semester.*

43. HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY.

Professor KENNICK.

4 credit hrs.

A survey of European philosophy from the early Greeks to the end of the Middle Ages, with emphasis on Plato, Aristotle, the Stoics, the Epicureans and some Christian philosophers. Reading and discussion of selected works of the period. Four class hours per week. *Elective for Sophomores. First semester.*

44. HISTORY OF MODERN PHILOSOPHY.

4 credit hrs.

Professor KENNICK.

A survey of European philosophy in the seventeenth, eighteenth, and nineteenth centuries, with emphasis on Descartes, Spinoza, Locke, Hume, and Kant. Reading and discussion of selected works of the period. Four class hours per week. *Elective for Sophomores. Second semester.*

45. PHILOSOPHY OF RELIGION. Mr. DESPLAND.

3 credit hrs.

(Same course as Religion 45.) An examination of some basic religious concepts in the light of philosophical analysis. Among topics to be considered are the nature and status of religious knowledge, the existence and nature of God, and some religious views of human nature and conduct. Three class hours per week. *Elective for Juniors. First semester.*

47. AMERICAN PHILOSOPHY. Professor KENNEDY.

3 credit hrs.

A study of the modern period in American thought. Reading and discussion of works by Peirce, James, Royce, Santayana, Veblen, Dewey and others. Three class hours per week. *Elective for Juniors. First semester.*

49. CONTEMPORARY RELIGIOUS THOUGHT.

3 credit hrs.

Professor PEMBERTON.

An analysis of selected nineteenth and twentieth century religious and secular writers whose thought reflects in criticism and constructive statement the "religious situation" in contemporary Western culture. The readings will be chosen from such writers as Dostoevski, Nietzsche, Kierkegaard, Feuerbach, Freud, Camus, Sartre, Marcel, Buber, Bonnhoeffer, Maritain, Dewey, Niebuhr and Tillich. (Same course as Religion 49.) Three hours of classroom work per week. *Elective for Juniors. First semester. (Omitted 1963-64.)*

51. AESTHETICS. Professor KENNICK.

3 credit hrs.

A comparative and critical examination of the principal theories of the nature of art, the creative process, aesthetic experience, "beauty" or aesthetic value, and of the principles of appreciation and the standards of criticism. Special emphasis is placed upon the thought of modern philosophers and critics. Three class hours per week. *Elective for Juniors. First semester.*

53. PLATO AND ARISTOTLE.

4 credit hrs.

(Same course as Classics 53.) Several major works by each of these philosophers will be read in their entirety and discussed in class. The chief

aim of the course will be to achieve a comprehension of the major philosophical positions of these writers, though some attention will also be paid to the historical development, the antecedents, and the subsequent influence of their ideas. All readings will be in English. Three class hours per week. *Elective for Juniors (and for sophomores with the consent of the instructor). First semester. Limited to twenty five students. (Omitted 1963-64).*

71. TOPICS IN PHILOSOPHY: METHODS OF INQUIRY AND PHILOSOPHIES OF KNOWLEDGE. 4 credit hrs.
Professor EPSTEIN.

A comparative study of the methodologies and philosophies of knowledge of Descartes, Russell and Dewey.

Readings will include selections from the major writings of each and from modern and contemporary critical commentary. Requisite: Two semester courses in philosophy, or the consent of the instructor. One two-hour seminar per week. *Elective for Juniors. First semester.*

72. TOPICS IN PHILOSOPHY: KANT AND KANTIANISM. 4 credit hrs.
Professor TREDWELL.

A study of the *Critique of Pure Reason* and the development of Kant's epistemological ideas in 19th century Germany. Requisite: Two semester courses in philosophy, or the consent of the instructor. One two-hour seminar per week. *Elective for Juniors. Second semester.*

74. METAPHYSICS. Professor KENNICK. 3 credit hrs.

A comparative and critical examination of some metaphysical concept (e.g., Substance, Event, Time) or of the answers, both classical and modern, to some metaphysical question. This examination will not be made for historical purposes but will presuppose some knowledge of the major figures in the history of philosophy. Requisite: Philosophy 43 and Philosophy 44, or the consent of the instructor. Two hours, third hour at the discretion of the instructor. *Elective for Seniors. Second semester. (Omitted 1963-64.)*

79. CONFERENCE COURSE. The Department. 4-8 credit hrs.

Required of candidates for honors in philosophy. Detailed outline of thesis and adequate bibliography for project required before Thanksgiving; preliminary version of substantial portion of thesis by end of semester. *Elective for Seniors. First semester.*

80. CONFERENCE COURSE. The Department. 4-8 credit hrs.

Required of candidates for honors in philosophy. *Elective for Seniors. Second semester.*

91. SPECIAL TOPICS (Independent Reading Course) 1-4 credit hrs.
First semester.

92. SPECIAL TOPICS. (Independent Reading Course) 1-4 credit hrs.
Second semester.

Physical Education

Professors ECKLEY, LUMLEY, RICHARDSON, ROSTAS and WILSON; Associate Professors DUNBAR, McCABE and OSTENDARP; Assistant Professors MILLER, SCANDRETT and SERUES; Mr. VAN PETERSILGE.

Complete physical examination, physical fitness tests, special exercises for individual development and a program of instruction and participation in team games and sports. *Required for Freshmen and Sophomores and men who have not met the department standards in swimming, fitness, team games, and recreational sports.*

Physics

Professors ARONS, BENSON SOLLER, and TOWNE*; Associate Professors DEMPESEY, GORDON, and ROMER; Assistant Professor WHITESIDE.

Any student considering a major in physics should seek the advice of a member of the Department as early as possible in order to work out a program best suited to his interest and ability, whether he is considering a career in physics, engineering, secondary school science teaching, one of the inter-science fields such as biophysics, or a non-scientific career. A prospective physics major should not fail to complete Math 3 and Physics 24 by the end of his sophomore year. Students interested in majoring in biophysics should consult the separate biophysics listings.

The minimum course requirements for a physics major are as follows: Math 31, Physics 24, 51, 52, 55, 56, 60S, and one additional physics course, plus any courses beyond the sophomore science requirement in astronomy, biology, chemistry, geology or mathematics, to total 30 credit hours. In addition, all physics majors will attend the Physics Seminar during their junior year, and will participate actively in it in the senior year. A major is required to take written comprehensive examinations at the end of each semester of the senior year. The first examination will test general understanding at approximately the level of Physics 24. The second will call for comprehension at the more sophisticated level of the junior and senior courses.

The course requirements for a major with honors are the specific courses listed above, plus Math 32, Physics 58, 74S, 75, 79, 80. Upon consultation with the Department, these requirements may be altered to fit the needs of individual students. At the end of the first semester of the senior year, the student's performance on the first comprehensive examination, together with his progress on his honors problem will determine the advisability of his being allowed to continue the honors program.

The aim of honors work in physics is to provide an opportunity for the student to develop under faculty direction his ability and interest in individual investigation, and his skill in experimental or theoretical tech-

niques. The primary fields of experimental research in progress in the department are low temperature physics, nuclear magnetic resonance, mass spectrometry and oceanography. In addition, however, experimental equipment is available for work in some phases of magnetism, ultrasonics, optics, electronics, and atomic and nuclear physics. The student is given facilities to review the literature in the field chosen, to design, construct and assemble his experimental equipment, to perform experiments, and finally to prepare a thesis, which is due on May 1. During the spring, he will also present his work in the Physics Seminar, and at the end of the second semester, he will take an oral examination, in addition to the written comprehensive examination required of all physics majors (see above). This oral examination is devoted primarily to the student's thesis and to questions suggested by his work on the written comprehensive examinations.

The departmental recommendation for the various degrees of honors will be based on the student's record in the Department, the honors work, and the comprehensive and oral examinations.

| 1. Same course as physics part of Science 1. | 2 credit hrs. |
| 2. Same course as physics part of Science 2. | 2 credit hrs. |
| 5. SPECIAL INTRODUCTORY PHYSICS. | 2 credit hrs. |

Professor ROMER.

A course intended as an alternate to the physics part of Science 1, 2 for students who on entrance have had an adequate preparatory course in physics and some calculus. The design of the course will be to achieve a synthesis and extension of concepts previously studied, rather than to provide a rapid sequential review of topics in physics. Calculus will be used whenever pertinent.

Two class hours per week, with occasional periods for discussion or laboratory. Requisite: Adequate preparation in both physics and mathematics (calculus). *Elective for Freshmen. First semester.*

- | | |
|-----------------------------------|---------------|
| 5S. SPECIAL INTRODUCTORY PHYSICS. | 2 credit hrs. |
|-----------------------------------|---------------|

Professor BENSON.

Same course as Physics 5, Requisite: Math 1, 2, and adequate preparation in physics. *Elective for Freshmen. Second semester.*

- | | |
|-----------------------------------|---------------|
| 23. SPECIAL INTERMEDIATE PHYSICS. | 4 credit hrs. |
|-----------------------------------|---------------|

Professor BENSON.

A course designed primarily for students not majoring in the physical sciences, extending the work done in Science 1, 2 and discussing more fully such topics as periodic motion, electricity and magnetism, electronics, and atomic and nuclear physics. Four hours of lectures and discussion, and one laboratory period per week. Requisite: Science 1, 2, or Physics 5 or 5S. *Elective for Sophomores. First semester.*

24. INTERMEDIATE PHYSICS. Professor DEMPESY. 4 credit hrs.

A course which takes up various blocks of subject matter and essential physical concepts not covered in Science 1, 2, with emphasis on areas such as the first and second laws of thermodynamics, electrical and mechanical oscillations, and electric and magnetic fields. This course is a prerequisite for all following physics courses, and is therefore required for all physics majors. Students not majoring in physics but who intend to include advanced physics courses in their program should elect this course rather than Physics 23. Four hours of lectures and discussion and one laboratory period per week. Requisites: Science 1, 2, Math 3, unless exception is granted in advance by the instructor. *Elective for Sophomores, or for Freshmen who have been excused from Science 1, 2 or who have taken Physics 5 and Mathematics 3X. Second semester.*

51. MECHANICS. Professor DEMPESY. 3 credit hrs.

Newtonian dynamics from a vector point of view. Special emphasis is placed upon central force motions, the two body problem, and moving reference frames. Three hours of lectures and discussion per week. Requisites: Physics 24, concurrent registration in Mathematics 31. *Elective for Juniors. First semester.*

52. WAVE PHENOMENA. Professor GORDON. 3 credit hrs.

General characteristics of wave motion—the wave equation, energy relationships, diffraction, interference, reflection, refraction and polarization. Each phenomenon will be discussed in the context of either optics or acoustics depending upon the relative importance of its applications in the two fields. Three hours of lectures and discussion per week. Requisites: Physics 24, Mathematics 31. *Elective for Juniors. Second semester.*

55. EXPERIMENTAL PHYSICS. 2 credit hrs.

Professors SOLLER, BENSON, and WHITESIDE.

Physics 55 and 56 together constitute a laboratory course which runs throughout the year. Either or both may be taken, and in either order. Assigned reading, problems and laboratory work dealing with electrical and magnetic measurements, d-c and a-c circuits, vacuum tube and transistor electronics, and optical and acoustical phenomena. In special cases, experiments may be selected to fit the needs of individual students. One laboratory period per week with occasional lectures and discussion. Requisite: Physics 24. *Elective for Juniors. First semester.*

56. EXPERIMENTAL PHYSICS. 2 credit hrs.

Professors WHITESIDE, BENSON, and SOLLER.

Course description is given under Physics 55. One laboratory period per week with occasional lectures and discussion. Requisite: Physics 24. *Elective for Juniors. Second semester.*

58. ELECTROMAGNETIC THEORY. 4 credit hrs.

Professor ROMER.

A development of Maxwell's electromagnetic field equations and some

of their consequences. Electrostatics, potential theory, static magnetic fields, macroscopic theory of dielectric and magnetic materials, Poynting's theorem, electromagnetic waves, radiation from an accelerated charge. Some topics from solid-state physics. Four class hours per week. Requisites: Physics 24, concurrent registration in Mathematics 32. *Elective for Juniors. Second semester.*

60S. MODERN PHYSICS. Professor GORDON. 4 credit hrs.

20th Century developments in physics. Photoelectric effect, Bohr's quantum theory, atomic spectra and the vector model of the atom, x-rays, selected topics in nuclear physics, special theory of relativity. Four hours of lectures and discussion, and one laboratory period per week. Requisite: Physics 24. *Elective for Sophomores. First semester.*

62. ADVANCED EXPERIMENTAL PHYSICS. 2 credit hrs.

Professors BENSON, SOLLER, and WHITESIDE.

Selected experiments in electronics, spectroscopy, x-rays, and atomic and nuclear physics. One laboratory period per week. Requisite: Physics 55 or 56. *Elective for Juniors. Second semester.*

74S. QUANTUM MECHANICS. Professor WHITESIDE. 3 credit hrs.

Calculus of variations. Lagrangian and Hamiltonian formulations of classical mechanics. Heuristic introduction to concepts of Schrödinger wave mechanics. Expectation values, Ehrenfest's theorem, uncertainty principles. Application to square potentials, harmonic oscillator, hydrogen atom. Three hours of lectures and discussion per week. Requisites: Physics 51, 58, 60S. *Elective for Seniors. First semester.*

75. THERMODYNAMICS. Professor ARONS. 4 credit hrs.

Generalization of the ideas of work, heat, energy. Mathematics of thermodynamics. First and Second Laws with applications to one component systems. Thermodynamic functions as criteria of equilibrium. Interpretation of thermodynamic laws and functions in terms of the behavior of aggregations of atoms and molecules. Four hours of lectures and discussion per week. Requisites: Mathematics 32, Physics 58 or consent of the instructor. *Elective for Seniors. First semester.*

79-80. HONORS COURSE. The Department. 4-8 credit hrs.

Individual, independent work on some problem, usually in experimental physics. Reading, consultation and seminars, and laboratory work. *Elective for Seniors who have been admitted to the honors program. First and second semester.*

91. SPECIAL TOPICS. (Independent Reading Course) 1-4 credit hrs.
First semester.

92. SPECIAL TOPICS (Independent Reading Course) 1-4 credit hrs.
Second semester.

Political Science

Professors LATHAM and ZIEGLER; Visiting Professor OPPENHEIM; Associate Professor SPIRO; Assistant Professor KATEB* and Mr. BOWMAN.

Note: A major in political science consists of eight courses in political science. All majors are required to take 21 or 21S, Introduction to Political Science, and 31, American Government. For majors in the Department, 21 or 21S is a prerequisite or corequisite for all courses in the Department. In addition, the Department requires each major to take one of the courses in each of the following fields: Comparative Government, International Law and Relations, and Political Theory. *Rite* majors must take a seminar course in the Department in either their junior or senior years. In addition, they will be required to pass a written comprehensive examination on the four fields offered by the Department, in the spring of their senior year. Students not majors in the Department may take any course in the Department with the consent of the instructor.

The honors program is designed to provide students through advanced work in political science with the full opportunity for independent research and writing. In addition to the courses prescribed for all majors, honors candidates are required to take 79 and 80, and to prepare a substantial thesis based upon independent research, upon which they will be examined orally. In addition, they will be required to pass a written comprehensive examination on the four fields offered by the Department, in the spring of their senior year.

21. INTRODUCTION TO POLITICAL SCIENCE. 4 credit hrs. Professor LATHAM.

An analytical treatment of the role of politics in human society. Attention will be given to the theoretical and historical bases of political institutions, the social roots of political behavior, and the characteristics of the political process. Four hours of classroom work a week. Prerequisite or corequisite for all Political Science courses taken by Political Science majors. *Elective for Sophomores. First semester.*

21S. INTRODUCTION TO POLITICAL SCIENCE. 4 credit hrs. Professor LATHAM.

Same description as above. Prerequisite or corequisite for all Political Science courses taken by Political Science majors. *Elective for Sophomores. Second semester.*

23. EUROPEAN POLITICAL SYSTEMS. Professor SPIRO. 4 credit hrs.

A comparison of government and politics in Great Britain, France, Germany, Italy, Switzerland, Sweden, and the Soviet Union. Topics will include historical, cultural, social, and constitutional determinants of political style; relations between local, associational, and national politics; sources

* Absent on leave 1963-64.

of consensus; and comparisons between constitutionalism and totalitarianism. *Elective for Sophomores. First semester.*

24. THE POLITICS OF DEVELOPMENT.

4 credit hrs.

Professor SPIRO.

A comparison of politics in Latin America, South and South East Asia, the Near East, and Africa. Topics will include colonialism, independence movements, and nationalism; economic, social, and constitutional factors affecting political development; new elites; and the role of the developing areas in world politics. *Elective for Sophomores. Second semester.*

25. AMERICAN CONSTITUTIONAL DEVELOPMENT. 4 credit hrs.

Professor LATHAM.

The development of American constitutional philosophy since 1787 under three general heads: the Agrarian Constitution, the Laissez-Faire Constitution, and the Welfare Constitution. Topics will include the Marshall and Taney eras, constitutional problems of slavery, the Civil War and Reconstruction, the constitutional foundations of 19th century capitalism, constitutional problems of federal and state regulation, civil liberties in the 20th century, the constitutional crisis of 1935-1937, and current problems of constitutional interpretation. Attention will be given to the judicial philosophies of the Federalist and Jacksonian judges, Field, Miller, Waite, Harlan, Holmes, Brandeis, Stone, Black, and Frankfurter. Four hours of classroom work per week. *Elective for Sophomores. First semester.*

27. POLITICAL PARTIES. Mr. BOWMAN.

4 credit hrs.

The role of people, parties and pressure groups in the politics of American democracy. Attention will be devoted to: campaign activities of the candidates; party support for the candidates; voting behavior; sectional and historic roots of national politics; the institutional politics of Congress and the Presidency; the competition for power among business, labor, agriculture, and the other major organized interests. Three hours of classroom work per week plus participation and further work in political campaigns. *Elective for Sophomores. First semester.*

29. WORLD POLITICS. Professor SPIRO.

4 credit hrs.

An analysis of politics in the global political system of the nuclear age. Topics will include comparisons between contemporary world politics and earlier systems of international relations; the relative importance of power, ideology, and procedure; policies of the major blocs; and international organization, especially the United Nations system. *Elective for Sophomores. First semester.*

31. AMERICAN GOVERNMENT. Professor ZIEGLER.

4 credit hrs.

An introduction to the major problems of American democracy; their political, economic and social implications and their historical evolution. Politics and administration in their relation to constitutional government,

federalism, suffrage, governmental functions, etc. Required for all majors in the Department. Four hours of classroom work per week. *Elective for Sophomores. First semester.*

41. THE ADMINISTRATION OF PUBLIC POLICY. 4 credit hrs.

An introduction to the problem of bureaucracy in American government with attention to social factors that shape and condition administrative structures; group behavior in administrative agencies; the theory of organization in its formal and informal aspects; the political setting of public administration; problems involved in the formulation of American foreign policy. Four hours of classroom work per week. *Elective for Juniors. First semester. Limited to twenty students. (Omitted 1963-64.)*

42. ADMINISTRATIVE LAW. Professor ZIEGLER. 4 credit hrs.

An introduction to the American system of legal control exercised by other law administering agencies than the courts, with special reference to doctrines developed by the Interstate Commerce Commission, Securities and Exchange Commission, Federal Trade Commission, and the National Labor Relations Board. The course deals with the formulation of legislative purposes and administrative policies; administrative and judicial responsibilities for the enforcement of agency programs; and the nature and extent of judicial control over administrative action. Three hours of classroom work per week. *Elective for Juniors. Second semester. Limited to 25 students.*

44. INTERNATIONAL LAW. Professor ZIEGLER. 4 credit hrs.

The historical basis and present trends in the development of international law will be discussed and related to the social, economic, and political aspects of present day world politics and government. Psychology

Professors KOESTER and COPLIN*; Visiting Professor HEATH; Associate Professors BIRNEY and GROSE*; Assistant Professor OLVER.

Students majoring in psychology are required to elect thirty credit hours of course work in psychology or closely allied fields. A minimum of twenty-two hours must be elected from the course offerings of the department. Psychology 21 should be elected in the sophomore year by students who plan to major in psychology.

Students who are accepted for honors work are required to complete a research project during the senior year and to pass an oral examination based upon a written thesis. Students who plan to do honors work are expected to engage in exploratory research during the second semester of the junior year for the purpose of defining the nature of the research project to be done during the senior year.

A comprehensive examination is given to all majors during the second semester of the senior year. Sophomores who have taken Psychology 21 may elect upperclass courses with the permission of the instructor.

21. INTRODUCTION TO PSYCHOLOGY. 4 credit hrs.
Professor BIRNEY.

An introduction to the nature and varieties of psychological inquiry with emphasis upon the basic determinants of behavior. Three lectures a week and laboratory sessions. *Elective for Sophomores. First semester.*

21S. INTRODUCTION TO PSYCHOLOGY. 4 credit hrs.
Professor KOESTER.

Same course as Psychology 21. *Elective for Sophomores. Second semester.*

39. PSYCHOLOGY OF PERSONALITY. 4 credit hrs.
Professor BIRNEY.

A study of personality with emphasis upon empirical findings and concepts related to man's adjustment to biological, social, and cultural events. Three class hours a week. Requisite: Psychology 21. *Elective for Juniors. First semester.*

Russian

Messrs. RADLEY and KUHN.

1. FIRST-YEAR RUSSIAN. Mr. RADLEY. 4 credit hrs.
Pronunciation, grammar, oral practice. Four hours per week of grammar and two hours of oral practice. *Elective for Freshmen. First semester.*
2. FIRST-YEAR RUSSIAN. Mr. RADLEY. 4 credit hrs.
Four hours of grammar and two hours oral practice per week. Reading and analysis of selected texts. *Elective for Freshmen. Second semester.*
3. SECOND-YEAR RUSSIAN. Mr. KUHN. 4 credit hrs.
Review of grammar and pronunciation. Reading and analysis of selected texts, fictional and non-fictional. Four hours per week of reading and two hours of oral practice. *Elective for Freshmen. First semester.*
4. SECOND-YEAR RUSSIAN. Mr. KUHN. 4 credit hrs.
Reading of literary texts from the 19th century and the modern period. Four hours per week of reading and two hours oral practice. *Elective for Freshmen. Second semester.*
5. READINGS IN RUSSIAN LITERATURE. Mr. KUHN. 3 credit hrs.
The aim of this course is to develop fluency and accuracy in translating fairly difficult prose, both fictional and non-fictional. Emphasis will fall on the 19th century novel and short story. Three hours of classroom work per week. *Elective for Freshmen. First semester.*
6. READINGS IN RUSSIAN LITERATURE. Mr. KUHN. 3 credit hrs.
Continuation of Russian 5. Soviet texts will be included. *Elective for Freshmen. Second semester.*
21. SURVEY OF RUSSIAN LITERATURE: Part I. 4 credit hrs.
Mr. RADLEY.
From the beginnings to Turgenev. All readings in English. *Elective for Sophomores. First semester.*
22. SURVEY OF RUSSIAN LITERATURE: Part II. 4 credit hrs.
Mr. RADLEY.
From Tolstoy to the present. All readings in English. *Elective for Sophomores. Second semester.*
23. DOSTOEVSKY. Mr. KUHN. 4 credit hrs.
A study of representative early works and the major novels. All readings in English. (Russian majors will be required to read selected texts in the original and will be tested thereon.) Three hours a week. *Elective for Sophomores. First semester.*

Science

SCIENCE 1. Professors ARONS and BREUSCH in charge. 4 credit hrs.

A course in physical science and mathematics. The objectives of the course are: to show what is meant by a scientific concept and how scientists construct a conceptual scheme to obtain a deeper understanding of physical phenomena; to show how scientists work and reason and how such reasoning has led to discoveries which have influenced the development of our culture and the outlook of man toward the world around him; to impart some knowledge of physical laws and phenomena, particularly those which affect our everyday lives and actions.

To achieve these ends, no attempt is made to cover a wide range of subjects in the fields of physics and mathematics; rather, a limited number of subjects is studied with some care, so as to develop a more profound understanding than would otherwise be possible.

In physics, topics are selected from mechanics in such a way as to develop an understanding of the ideas which led to Newton's formulation of the laws of mechanics and the theory of gravitation and thence to indicate the impact which the Newtonian synthesis has had on the subsequent development of science and philosophy. Selected topics from electricity and optics are then introduced and, combined with the previously developed topics in mechanics, are used to show how we have arrived at our present conception of the structure of matter.

In mathematics, topics are selected from analytic geometry and calculus in such a way as to show how this science has arisen as a powerful independent discipline and how its tools, in turn, have profoundly influenced the development of physical science. An introduction to the theory of sets is included.

Mathematics, two hours; Physics, two hours; Laboratory, two hours. *Required for Freshmen. First semester. See also the descriptions of Physics 5 and 5S in the Physics Department listings.*

SCIENCE 2. Professors ARONS and BREUSCH in charge. 4 credit hrs.

The second semester of the course outlined above under Science 1.

Mathematics, two hours; Physics, three hours; Laboratory, two hours. *Required for Freshmen. Second semester. See also the descriptions of Physics 5 and 5S in the Physics Department listings.*

SCIENCE 1-2 STAFF; Professors ARONS, BAILEY, BENSON, DEMPSEY, GORDON, KROPF, ROMER, SOLLER, SPRAGUE, TOWNE*, WILLCOX and WHITESIDE.

3S. CONCEPTS AND METHODOLOGY IN MODERN SCIENCE.

Professors ARONS and EPSTEIN.

4 credit hrs.

A course in physical science and philosophy, treating three great conceptual developments through which modern science has influenced the history of ideas and man's view of his place in the universe: relativity, the laws of thermodynamics, the quantum concepts. The point of departure is that reached at the end of Science 1, 2. Mathematical and physical concepts developed in the freshman course will be used throughout and will be extended where necessary. The scientific ideas will be developed with logical care and will be examined in their philosophical and historical context. The course is intended primarily as an elective for majors in humanities and the social sciences; it is not open to physics majors. Majors in other sciences may be admitted by permission of the instructors. *Elective for Sophomores. Second semester. Alternate years.*

5, 5S. SPECIAL INTRODUCTORY PHYSICS.

(Same courses as Physics 5 and 5S).

21. CHEMISTRY-BIOLOGY SEQUENCE. CHEMISTRY. 4 credit hrs.

Professors BEEBE, LANCFORD, WHITNEY and SILVER.

A study of substances, their structure, their properties and the reactions by which they are converted into other substances. Attention is given to the orientation of chemistry toward physics, biology and the other related sciences. Three hours classroom and four hours laboratory work per week. (Same course as Chemistry 21.) Requisite: Science 2. *Elective for Sophomores. First semester.*

22. CHEMISTRY-BIOLOGY SEQUENCE. GENERAL BIOLOGY.

Professor KIDDER.

4 credit hrs.

An introduction to biological principles integrated with the first semester chemistry which is arranged as part of a program of liberal study. Three classroom hours and two hours of laboratory work per week. (Same course as Biology 22.) *Elective for Sophomores. Second semester.*

23. ORGANIC EVOLUTION. Professor WOOD.

4 credit hrs.

A study of the evolution of organisms including the genetic background of evolution, the evolution of structure and function and certain theoretical aspects of the subject. Three lectures and one two-hour laboratory per week. (Same course as Biology 23.) *Elective for Sophomores. First semester.*

23S. ORGANIC EVOLUTION. Professor WOOD.

4 credit hrs.

Same description as Science 23; same course as Biology 23S. *Elective for Sophomores. Second semester. (Omitted 1963-64.)*

* Absent on leave 1963-64.

41. INTRODUCTION TO THE HISTORY OF SCIENCE.

3 credit hrs.

History and method of mechanics from the 13th century to Hamilton and Lagrange. The historical development of axiomatic biology. Three class meetings per week. Requisite: Completion of the Amherst College science requirement or its equivalent. *Elective for Juniors. First semester. (Omitted 1963-64.)*

Spanish

Professor JOHNSON; Assistant Professor CANNON; Assistant: Mrs. GALVIN.

All *rite* majors in Spanish are required to elect 30 semester hours of courses offered or approved by the Department, including Spanish 7 or 7S, but excluding Spanish 1 and 3. All honors candidates are required to elect courses 7 or 7S, 10, 21, 22, 25, 26, 79-80. This course program may be adjusted in certain cases. Honors candidates must present a thesis and pass a comprehensive examination in the history of Spanish literature and in the critical interpretation of texts. Beginning with the class of 1962, all majors must pass the comprehensive examination. A reading list will be furnished to aid in preparation for the examination.

A combined major in two languages may be arranged by consultation with the Department. For a student whose primary foreign language is Spanish, the major must include 20 credit hours in Spanish exclusive of Spanish 1 and 3. In the second language it must include ten hours, of which at least three must deal with literature. A comprehensive examination covering both fields will be given. A reading list will be made to suit individual cases.

Requirements for Sophomores in Humanities. The following courses are approved as satisfying the Humanities requirement in sophomore year: any course or combination of courses (numbered above 5, except Spanish 10) giving 4 credit hours.

1. ELEMENTARY COURSE.

4 credit hrs.

Professor CANNON and assistant.

Three hours a week for explanation and demonstration, and four hours a week in small sections for oral and aural practice. *Elective for Freshmen. First semester.*

3. INTERMEDIATE COURSE.

4 credit hrs.

Professor JOHNSON and assistant.

Review of grammar; oral and aural practice; study of selected texts. Three hours a week for explanation and demonstration, and three hours a week for oral and aural practice. Assignment to this course will be made on the basis of the score in the CEEB Achievement Test. *Elective for Freshmen. First semester.*

3S. INTERMEDIATE COURSE.**4 credit hrs.**

Professor CANNON and assistant.

Same description as above. Requisite: Spanish 1, or the equivalent. *Elective for Freshmen. Second semester.*

5. ADVANCED COURSE.**4 credit hrs.**

Professor JOHNSON and assistant.

The purpose of this course is to complete the student's training in reading and in aural comprehension. Six hours a week in the language laboratory and in class. Stress will be placed on the acquisition of aural comprehension of the language and on oral practice. Conducted in Spanish. Requisite: a satisfactory score in the CEEB Achievement Test, or Spanish 3, or the equivalent. *Elective for Freshmen. First semester.*

5S. ADVANCED COURSE.**4 credit hrs.**

Professor JOHNSON and assistant.

Same description as above. Requisite: a satisfactory score in the CEEB Achievement Test, or Spanish 3, or the equivalent. *Elective for Freshmen. Second semester.*

7. INTRODUCTION TO HISPANIC CIVILIZATION.**4 credit hrs.**

Professor JOHNSON.

Study and discussion of such texts as the *Abencerraje* and *Lazarillo*, *Fuenteovejuna* and *Bodas de sangre*, romances and other kinds of poetry, a modern novel. Four hours a week in class and in the language laboratory. Conducted in Spanish. Requisite: satisfaction of the language requirement. *Elective for Freshmen. First semester.*

7S. INTRODUCTION TO HISPANIC CIVILIZATION.**4 credit hrs.**

Professor CANNON.

Same description as above. Requisite: satisfaction of the language requirement. *Elective for Freshmen. Second semester.*

10S. COMPOSITION AND CONVERSATION.**4 credit hrs.**

The Department.

A review of the Spanish language with practice in conversation, set translation, free composition and oral reports. Five hours a week in class and in the language laboratory. *Elective for Freshmen. First semester.*

10. COMPOSITION AND CONVERSATION.**4 credit hrs.**

The Department.

Same description as above. *Elective for Freshmen. Second semester.*

21. SPANISH LITERATURE SINCE 1898.**4 credit hrs.**

Professor CANNON.

Three hours a week. A survey of the renaissance of Spanish literature in the twentieth century. Extensive reading, with emphasis on Unamuno, Machado, Ortega, Lorca, and Alonso. Background lectures, written reports, outside reading. Conducted in Spanish. Requisite: Spanish 7, 7S. *Elective for Sophomores. (Omitted 1963-64.)*

22. READINGS IN SPANISH AMERICAN LITERATURE.

Professor JOHNSON.

4 credit hrs.

Three hours a week to study the poetry and prose of such writers as Ercilla, Echeverría, Bello, Sarmiento, Gallegos, Güiraldes, Borges. Lectures, class discussion, reports. Conducted in Spanish. Requisite: Spanish 7, 7S. *Elective for Sophomores. Second semester. (Omitted 1963-64.)*

25. THE MODERN SPANISH NOVEL.

4 credit hrs.

Professor CANNON.

Three hours a week. Extensive reading of Spanish novels of the nineteenth and twentieth centuries, with special attention to Galdós, Unamuno, Baroja, and Cela. Background lectures, reports, outside reading. Conducted in Spanish. Requisite: Spanish 7, 7S. *Elective for Sophomores.*

Lectureships

THE HENRY WARD BEECHER LECTURESHIP

This lectureship fund of \$10,000 was founded by the late Frank L. Babbott, LL.D., of the Class of 1878, in honor of Henry Ward Beecher, of the Class of 1834. The incumbent is appointed biennially by the Faculty for supplementary lectures in the departments of history and the political, social, and economic sciences.

THE CLYDE FITCH FUND

A fund of \$20,000 was established by Captain and Mrs. W. G. Fitch of New York in memory of their son, Clyde Fitch, of the Class of 1886. The income of this fund is to be used for the furtherance of the study of English literature and dramatic art and literature. The whole or part of this income is usually devoted to the remuneration of an eminent lecturer, who may also take a part in the regular instruction of the College

THE JOHN WOODRUFF SIMPSON LECTURESHIP

A fund now amounting to \$204,800 was established in memory of John Woodruff Simpson, of the Class of 1871, by his wife and daughter. The income is to be used for fellowships and "to secure from time to time, from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

THE GEORGE WILLIAM AND KATE ELLIS REYNOLDS LECTURESHIPS

A fund of \$150,000 established by the late George W. Reynolds of the Class of 1877 provides an annual income of approximately \$10,000 which is divided into three equal parts to provide lectureships on Christ and Christianity, Science, and American Democracy.

THE CHARLES E. MERRILL LECTURESHIP

A fund has been given by the late Charles E. Merrill of the Class of 1908 for a series of lectures and formal discussions on applied economics. Upon delivery, these lectures become the property of Amherst College for publication.

As in previous college years, a number of Merrill Lecturers will be brought to the College during 1962-1963 from the fields of government, business, labor, and agriculture.

Honors

THE PHI BETA KAPPA SOCIETY

Massachusetts Beta Chapter

The students elected to membership in this honor society are those of highest standing and are normally candidates for the degree with honors. A preliminary election of outstanding students occurs at the end of the first semester of Junior year; and further elections occur at the end of the first semester and at commencement time of Senior year. Membership in the society is extended to about a tenth of the students in each class.

THE SOCIETY OF THE SIGMA XI

Sigma Xi, the National Honorary Scientific Research Society, was founded in 1886; the Amherst Chapter was installed March 23, 1950. As one of its purposes the Society gives recognition to those students, members of the faculty, and research associates who have demonstrated ability to carry on constructive scientific research or who show definite promise of research ability. Other functions are the maintenance of companionship among investigators in the various fields of science, the holding of meetings for the discussion of scientific subjects, and the fostering of an interest in scientific research in the College.

Undergraduates, masters candidates, and others who show definite promise of research ability may be recommended to associate membership by the departments concerned. In the case of undergraduates, nomination will be given only to those students whose promise of research ability would warrant recommendation for at least a degree *magna cum laude* (entirely aside from the question of grades). At present the chapter has a total membership of some 80 faculty and students.

DELTA SIGMA RHO-TAU KAPPA ALPHA

Delta Sigma Rho-Tau Kappa Alpha, a national honor society in forensics, was formed by the merging of Delta Sigma Rho and Tau Kappa Alpha in 1963. Delta Sigma Rho was founded in 1906; the Amherst Chapter was admitted to Delta Sigma Rho in 1913. Tau Kappa Alpha was founded in 1908. The purpose of the Society is to encourage sincere and effective public speaking and to recognize achievement in this field of endeavor. To qualify for membership students must have participated in intercollegiate debating and be in the top thirty-five per cent of their class. Members-at-large may be elected to recognize outstanding contributions to forensics.

Fellowships

The College's funds for fellowships aggregate \$538,000. From the income of these funds fellowships are awarded annually to graduates of Amherst College, and in some instances to graduates of other colleges, for study in graduate or professional schools. Applications should be made in writing to the Dean before March first.

The names of those to whom fellowships have been awarded for the current year will be found on page 14.

THE AMHERST-DOSHISHA FELLOWSHIP

Amherst-Doshisha Fellowship at Amherst House, Doshisha University, Kyoto, Japan. An opportunity to work in a bi-cultural setting with Professor Otis Cary, Director of Amherst House, is open to young alumni of the College for a term of one, or in some cases, two years. Travel expenses and a modest stipend are paid by the College. The recipient will be given the opportunity of assisting Otis Cary in the activities of Amherst House and also in teaching English to Japanese students. No knowledge of Japanese is required.

THE AMHERST MEMORIAL FELLOWSHIPS FOR THE STUDY OF SOCIAL, ECONOMIC, AND POLITICAL INSTITUTIONS, AND FOR PREPARATION FOR TEACHING AND THE MINISTRY

A fund of \$123,900 provides fellowships to perpetuate the memory of those Amherst men who gave their lives for an ideal. The following statement expresses the purposes of the donor of these fellowships: "Realizing the need for better understanding and more complete adjustment between men and existing social, economic, and political institutions, it is my desire to establish a fellowship for the study of the principles underlying these human relationships."

Appointments to these fellowships may be made from the graduating class or the alumni of Amherst College or of other colleges, the object being to permit men of character, scholarly promise, and intellectual curiosity to investigate some problem in the humanistic sciences. Candidates should be men of sound health. During previous training they should have given evidence of marked mental ability in some branch of the social sciences—history, economics, political science—and have given promise of original contribution to a particular field of study. It is desirable that they possess qualities of leadership, a spirit of service, and an intention to devote their efforts to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

While preference is given to candidates planning to do advanced work in the field of the social sciences, applications will be accepted and awards made to candidates who are planning to go to theological school as a preparation for a career in the ministry and to those from other fields

than the social sciences who are preparing for a career in teaching in secondary schools or colleges.

Appointments may be made for terms of two years. Tenure may, however, be shorter or longer, depending upon the nature of the subjects investigated or upon other circumstances which, in the judgment of the committee, warrant a variation in the length of tenure.

The stipend will vary according to the circumstances of the appointment. Awards will depend upon those aspects of individual cases which, in the judgment of the committee, most suitably fulfill the purpose of the foundation.

These fellowships will be awarded by the Board of Trustees upon the recommendation of the Faculty Fellowship Committee.

THE HENRY P. FIELD FELLOWSHIPS

Two fellowships of \$500 each are available from the income of the bequest of the late Henry P. Field of the class of 1880, to promote graduate study in the fields of English and History. Appointments are made annually by the College on the recommendation of the departments of English and History.

THE EDWARD HITCHCOCK FELLOWSHIP

The income from a fund of \$20,000 founded by the late Mrs. Frank L. Babbott of Brooklyn, N. Y., is available for the promotion of graduate study in the department of physical education. Its object is to make the student familiar with the best methods of physical training, both in the gymnasium and on the field. The appointment is made by the Faculty.

THE ROSWELL DWIGHT HITCHCOCK MEMORIAL FELLOWSHIP

A fund of \$8900, established through the agency of the Alpha Delta Phi Fraternity, provides an annual award under conditions determined by the Faculty, to a member of the senior class for excellence in history and the social and economic sciences. The holder of the Fellowship pursues for one year, at an institution approved by the Faculty, a course of study in history or economics, to be completed within the period of two years next following graduation. The amount of the Fellowship is paid in two installments, one on completion of one-half the year's work, the other at the end of the year.

THE RUFUS B. KELLOGG UNIVERSITY FELLOWSHIP

The income from a fund of \$58,800 established by the late Rufus B. Kellogg of the Class of 1858 provides certain prizes, and a fellowship award for three years to an alumnus of Amherst College, who shall be appointed upon the following conditions:

1. He shall be elected by the Faculty from the members of the class graduated at the close of the academic year in which this election shall

be made, or from the members of the classes graduated in the six years immediately preceding the academic year in which this election shall be made.

2. The faculty shall select as the incumbent of the said Fellowship the man who, in their judgment, is best equipped for study and research, without regard to any other considerations whatsoever, except that he should have an especially good knowledge of at least one modern foreign language and should have had at least one year of Latin in preparatory school or college.

3. The three years shall be spent by the incumbent at a German University, or with the approval of the said Faculty at any other place or places, in the study of philosophy, philology, literature, history, political science, political economy, mathematics or natural science. At least one college term of the final year shall be spent by the incumbent at Amherst College, where he shall give a series of not more than thirty lectures on a subject selected by himself and approved by the Trustees. The lectures shall be given to the Senior class, but the members of all other classes shall have the privilege of attending. The incumbent shall have his lectures published, at the end of his official term, in good book form, or in a learned journal.

THE EDWARD POOLE LAY FELLOWSHIP

The income from a fund of \$42,700, established by Frank M. Lay, of the class of 1893, and Mrs. Lay, in memory of their son Edward Poole Lay, of the class of 1922, provides for a fellowship to be awarded to a graduate of Amherst College who has shown unusual proficiency and talent in music, and who desires to continue his studies in this field. Preference is to be given to a candidate who is proficient in voice. In the event that there is no qualified candidate for the award in any one year in the musical arts (especially voice and instrumental music), then it may be awarded under the same conditions to a qualified candidate in the field of the dramatic arts.

This fellowship will be awarded by the Board of Trustees upon the recommendation of the Faculty Fellowship Committee.

THE JAMES INGRAM MERRILL AWARD

A fellowship of \$1,000 is available for a member of the graduating class, or a recent alumnus, who has done outstanding work in the field of English to assist him in graduate study at a University of his choice. The award may be made for either scholarly promise or for ability in creative writing. The award is to be made by the Fellowship Committee upon recommendation from the English Department.

THE FORRIS JEWETT MOORE FELLOWSHIPS

These fellowships, three in number, were established in memory of Forris Jewett Moore of the class of 1889 by his widow, Emma B. Moore.

In each case, the beneficiary is to be a member of the graduating class of the year preceding that in which he holds the Fellowship.

1. A fund of \$25,900, the income of which is to be used to assist some graduate of Amherst College who has distinguished himself in the study of chemistry while an undergraduate, and who desires to engage in further study of that subject. Preference is to be given to eligible candidates whose plans lie in the field of organic chemistry.

2. A fund of \$20,600, the income of which is to be awarded to a graduate of Amherst College who has distinguished himself in the study of history while an undergraduate, and who desires to engage in further study of that subject.

3. A fund of \$24,300, the income of which is to be awarded to a graduate of Amherst who has distinguished himself in the study of philosophy while an undergraduate and who desires to engage in further study of that subject.

THE GEORGE STEBBINS MOSES MEMORIAL FELLOWSHIP

The income from a memorial fund provides a fellowship to be awarded to an Amherst graduate each year who has been accepted by a recognized divinity school, who has good reason to seek financial aid, who seems to be an all-around man qualified in all respects as a religious and moral leader and a lover of ordinary people, and who is qualified scholastically to meet the calling of a theological career creditably. The candidate need not be an outstanding student, but improvement in the upperclass years, dedication, and a sense of purpose will be given great consideration.

The recipient will be selected by the Fellowship Committee acting with the College Chaplain and, ordinarily, will be awarded on an annual basis but, under appropriate circumstances, it may be renewed for a second or third year at the discretion of the Committee. If the income and needs of candidates permit, more than one fellowship may be awarded in any given year.

THE GEORGE A. PLIMPTON FELLOWSHIPS

These fellowships, established by the Board of Trustees of Amherst College in memory of George A. Plimpton of the class of 1876, a member of the Board from 1890 to 1895 and from 1900 to 1936, and President of the Board from 1907 to 1936, are to be awarded without stipend to members of the senior class who are of outstanding scholastic ability and promise, who plan to continue their studies in graduate school, and who are not in need of financial assistance.

These fellowships will be awarded by the Board of Trustees upon recommendation of the Faculty Fellowship Committee.

THE SHERMAN PRATT FACULTY FELLOWSHIPS FOR STUDY ABROAD

These fellowships are awarded by the President of the College to younger members of the Amherst Faculty, on the basis of past performance in

teaching, scholarship, and programs for further study. The stipends may be fixed in such amount as the President may determine. Each holder of a Sherman Pratt Fellowship will be expected on his return to the College to deliver to the college body one or more lectures.

THE JOHN WOODRUFF SIMPSON FELLOWSHIPS AND LECTURESHIPS

A fund now amounting to \$205,100 was established in memory of John Woodruff Simpson of the class of 1871, by his wife and daughter. The uses of the income as defined by the donors follow:

"1. To award to any graduate of Amherst College a fellowship for use in studying law at any school approved by the Board of Trustees of the College;

"2. To award to any graduate of Amherst College a fellowship for use in studying medicine at any school approved by the Board of Trustees of the College;

"3. To award to any graduate of Amherst College a fellowship for use in studying theology at any school approved by the Board of Trustees of Amherst College, without regard to the particular creed or particular religious belief taught thereat;

"4. To award to any graduate of Amherst College a fellowship for use in studying at any school, college or university approved by the Board of Trustees of the College, in preparation for the teaching profession;

"5. To award to any graduate of Amherst College a fellowship for use in graduate study at the universities of Oxford or Cambridge in England;

"6. To award to any graduate of Amherst College a fellowship for use in graduate study at the Sorbonne in Paris;

"7. To secure from time to time from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

These fellowships will be awarded by the Board of Trustees upon the recommendation of the Faculty Fellowship Committee.

THE BENJAMIN GOODALL SYMON, JR. MEMORIAL FELLOWSHIP

The income from a memorial fund provides a fellowship to be awarded to an Amherst graduate each year who has been accepted by a recognized divinity school, who has good reason to seek financial aid, who seems to be an all-around man qualified in all respects as a religious and moral leader, and who is qualified scholastically to meet the calling of a theological career creditably, although he may plan to use the divinity school training for work in another field. The candidate need not be an outstanding student, but improvement in the upperclass years, dedication, and a sense of purpose will be given great consideration.

The recipient will be selected by the Fellowship Committee acting with the College Chaplain and, ordinarily, will be awarded on an annual basis but, under appropriate circumstances, it may be renewed for a second or

third year at the discretion of the Committee. If the income and needs of candidates permit, more than one fellowship may be awarded in any given year.

FELLOWSHIPS AWARDED BY THE AMERICAN SCHOOLS OF CLASSICAL STUDIES AT ATHENS AND ROME

The attention of graduate students interested in the Classics and in Archaeology and Ancient Art is called to the opportunities offered by the American Schools of Classical Studies at Athens and Rome. As the College contributes regularly to the support of these schools, any Amherst graduate may enjoy the privileges of study at either school without charge for tuition and may compete for the annual fellowships which they offer. Further information may be obtained from any classical teacher at the College.

COLUMBIA—AMHERST MEMORIAL FELLOWSHIP IN HISTORY

This fellowship offered jointly by Amherst and Columbia is open to Amherst students in the graduating class for the study of History (preferably European History) at Columbia University. The stipend is determined on the basis of need but may be as much as \$2500. It may be renewed for a second year if a student's record justifies such a renewal.

YALE—AMHERST MEMORIAL FELLOWSHIP IN HISTORY

This fellowship offered jointly by Amherst and Yale is open to Amherst students in the graduating class for the study of History (preferably American History) at Yale University. The stipend is determined on the basis of need but may be as much as \$2500. It may be renewed for a second year if a student's record justifies such a renewal.

* "I will not disgrace the soldier's arms, nor abandon the comrade who stands at my side; but whether alone or with many, I will fight to defend things sacred and profane. I will hand down my country not lessened, but larger and better than I have received it. I will accept readily and with understanding the verdicts of our judges, and I will obey the established laws and such other laws as the people may establish. If anyone shall attempt to overthrow the laws, I will not permit it, but whether alone or with many, I will fight to defend them; and I will honor the religion of our fathers. The gods attest this oath!"
